### LIQUOR BOARD AUDIT STARTS IN MANITOBA

Attorney-General Calls For Investigation to End Rumors of Shortages

He Has Confidence In the Officials

Says Parallel Rumors About Government Telephone System Finances Groundless

### Shortages Lead To Mass Meeting

Winnipeg, Sept. 12.—A mass meeting of the citizens of Winnipeg to go into the matter of disclosures made in connection with the University of Manitoba endowment fund shortages will be called by Mayor Ralph H. Webb.

The Mayor demands that an independent commission be appointed by some other body than the provincial government thoroughly to investigate not only the loss of the university funds, but also all departments of the government.

"The situation that has developed in our city has shaken the confidence not only of the people of Winnipeg, but throughout the province," Mayor Webb stated.

Canadian Press

Winnipeg, Sept. 12.—Prompt action to investigate rumors of irregularities in connection with the funds of the Manitoba Liquor Commission was taken to-day by Hon. W. J. Major, Attorney-General. The rumors arose following the disclosure of defalcations of nearly \$1,000,000 in the funds of the University of Manitoba.

Mr. Major said that from his close contact with the affairs of the Liquor Board, he was convinced no irregularities could exist. In justice to the commission, however, he had appointed the accounting firm of Hubert Reade & Company to investigate and report on the sufficiency and accuracy of the audit of the affairs of the commission.

The investigation would be made as quickly as possible and would be thorough in every way.

TELEPHONE AFFAIRS

Rumors also existed in connection with the funds of the Manitoba telephone system, a government corporation which operates all telephone service in the province. In this connection Mr. Major recalled an investigation had been made only a few months ago when similar rumors arose and the auditors appointed, George A. Touche and Company, had reported everything in order.

## CONGRESS OF LABOR IN HAMILTON TO-DAY

Dominion Minister and Others Speak at Opening Session of Canadian Trades Body's Annual Convention

By Jack Hamilton, Canadian Press Staff Writer

Hamilton, Ont., Sept. 12.—Facing one of the most momentous meetings of his career, the Trades and Labor Congress of Canada opened its forty-eighth annual convention here to-day. From now until next Saturday, delegates from coast to coast will deliberate on problems confronting the laboring classes, with the object of compiling a list of recommendations they hope will overcome many of the difficulties.

William J. Burr, president of the Hamilton District Trades and Labor Council, Mayor John Feebles, Hon. Wesley Gordon, Dominion Minister of Labor, and Hon. J. D. Monteith, Ontario Minister of Labor, were among the speakers at the morning and afternoon sessions to-day. To-night there will be a ball sponsored by the local council.

More than 500 delegates are attending the sessions.

Tom Moore of Ottawa, president of the Congress, took his place on the speakers' platform shortly after the convention got under way this morning.

MANY RESOLUTIONS

With the problem of unemployment confronting the Congress, deliberations during the week are expected to go on record as outstandingly important. Among the 123 resolutions to be presented to the delegates are:

(Turn to Page 2, Col. 4)

## Searched For By Planes and Boats

Pilot George R. Hutchinson, Mrs. Hutchinson and their daughters, Janet Lee, six, and Kathryn, eight. The four others aboard the plane were Peter Redpath, formerly of Victoria, navigator; G. Artfisch, radio operator; J. Ruff, mechanic, and N. Alley, newsreel cameraman. Many Victorians were interested in the flight, being personally acquainted with Mr. Redpath, whose father is a resident of this city. Peter Redpath was chosen as crew member by Col. Hutchinson because of his ability as a navigator, he having spent years at sea. He voyaged from eastern Canada to Victoria as chief officer on the new hydrographic survey steamer Wm. J. Stewart.

### Canadian and Associated Press

Ottawa, Sept. 12.—Up to noon to-day no trace had been found of the Hutchinson plane, missing off the southeastern coast of Greenland, according to reports.

In a message to the radio branch of the Department of Marine here, the steamer N. D. McLean, Canadian Government ice-breaker stationed in Hudson Strait, it was reported that search during the early morning hours by the British trawler Lord Talbot had been unsuccessful.

It is presumed here that the McLean had been in direct communication with the trawler, which is about 700 miles from Hudson Strait.

The message to the radio branch read: "At 8 a.m., E.S.T., Hutchinson's plane had not been found. Trawler Lord Talbot has searched continuously since yesterday, using searchlights and rockets."

BY BOAT AND PLANE

Copenhagen, Sept. 12.—A motor boat party from the Pan-American-East Greenland Expedition and a naval plane from a Danish scientific expedition joined to-day in the search for the missing plane.

(Turn to Page 2, Col. 3)

## WOULD LIMIT BANDS' WORK

Canadian Press

Hamilton, Ont., Sept. 12.—The prohibition of military bands of the Canadian permanent force from accepting engagements at functions initiated by civilians was sought in a number of resolutions presented to the Trades and Labor Congress of Canada at its forty-eighth annual conference here to-day. The resolutions criticized the entering into competition with musicians who are dependent on music for their livelihood of bands which are entirely supported from the public funds of Canada.

The five-week tour of western fairs by the bands of the Princess Patricia's Canadian Light Infantry was roundly scored in the motions.

## Sharp Quake In Dutch East Indies

Amboina, Dutch East Indies, Sept. 12.—Sixty houses collapsed, but no one was injured, when the most serious earthquake since 1898 struck the town of Kampong today. All inhabitants left immediately, fearing a tidal wave.

## BIG ONTARIO MILL BURNED

Canadian Press

North Bay, Ont., Sept. 12.—The lumber mill of the Timagami Timber Company here was levelled by fire to-day. The loss is estimated at \$40,000.

## HOUSEBREAKER MAKES ESCAPE

Nanaimo Burglar Surrenders to A. G. Chatwin's Gun; Makes Get-away

Special to The Times

Nanaimo, Sept. 12.—A. G. Chatwin of Brechin yesterday arrested an unidentified man who entered his home a few minutes later he lost his prisoner while endeavoring to convince a passerby that assistance was necessary. The intruder gained access to the residence by prying the lock of a door. Mr. Chatwin seized a gun, ordered the stranger to throw up his hands and marched his prisoner into the road.

D. Edgell, a pedestrian, was asked to assist by calling the police. The newcomer could not understand the situation and while Mr. Chatwin showed the broken lock as evidence the intruder ran away. No accurate description of the house-breaker has been provided the police.

## STORM LEAVES MANY WRECKS

Canadian Press

Halifax, Sept. 12.—The North Atlantic coastline was strewn with wreckage to-day, aftermath of a big storm. Howling out of the northeast, the gale swept Nova Scotia on Saturday, whipped the islands of St. Pierre and Miquelon and spent itself somewhere in the ocean off Newfoundland.

## STORM NEARING TEXAS COAST

Associated Press

Port Arthur, Tex., Sept. 12.—Residents of Texas coastal towns and farming communities prepared to-day for the arrival of a tropical disturbance reported moving in from the Gulf of Mexico. Weather observers said if the blow kept its course it would strike near Port Arthur late to-night or to-morrow. A month ago a hurricane on the Texas coast killed more than forty persons.

## WAKEFIELD QUILTS RACING

Titled Britisher Who Backed Kaye Don Ceases Boat Activities

Canadian Press

London, Sept. 12.—Baron Wakefield, owner of Miss England III, fastest speed boat in the world, to-day announced to-day he would take no further part in motor boat speed contests.

British sport circles viewed the announcement with keen disappointment. Lord Wakefield has for years acted as "angel" for British mechanical speed sports and has sponsored numerous record attempts for automobiles and motor boats, and has also backed several long-distance airplane flights.

Baron Wakefield's boat Miss England III lost the Harnsworth series to Gar Wood's Miss America X on Lake St. Clair a week ago, but Miss England holds the world record—119.81 miles an hour, set on Loch Lomond in July. Gar Wood is planning an early attempt to set a new record.

## ANTI-CABINET VOTE IN NEW GERMAN ASSEMBLY THROWS TEST INTO COURT

### ILL IN AUSTRIA

RT. HON. WINSTON CHURCHILL

Canadian Press and Associated Press

Salzburg, Austria, Sept. 12.—Rt. Hon. Winston Churchill, M.P., former British Chancellor of the Exchequer, was taken from his hotel to a hospital to-day with a slight case of paratyphoid. The physician said his condition was not alarming.

A message received in London from Salzburg to-day by Mr. Churchill's secretary said the ex-Chancellor's illness was taking its normal course.

## DOLLAR LOSES ON EXCHANGE

New York, Sept. 12 (Canadian Press)—Fractional declines were registered by Canadian and British currencies on the local foreign exchange market to-day. The Canadian dollar, after earlier steadiness, closed a cent lower at 90 1/2 cents and the pound sterling ended the day 1/4 cent lower at \$3.48 1/2 for cables.

## J. H. PLUMMER, TORONTO, DIES

Formerly President of Dominion Steel and Coal Corporation

Canadian Press

Toronto, Sept. 12.—J. H. Plummer, former president of the Dominion Iron and Steel Company, died here yesterday.

Mr. Plummer had been assistant general manager of the Canadian Bank of Commerce and became president of the steel company in 1904. He continued in that office until 1916. He was a native of England.

## SOON TO ANNOUNCE DATE OF SESSION

With Bennett Back in Ottawa, Cabinet Prepares For Parliament to Meet in October; Transportation Report Completed

Canadian Press

Ottawa, Sept. 12.—The return to Ottawa of Premier Bennett will probably result in a speeding up of matters on Parliament Hill. Two important decisions, it is expected, will soon be made. In the first place, the date for the opening of Parliament will be fixed. Secondly a decision will be reached as to whether or not the important report of the Royal Commission on Transportation, now ready, will be made public or held for the opening of the session so the members of Parliament may have the first look at it.

With respect to the opening of Parliament, indications now are that the middle of next month, or possibly a few days after, will be the day. October 30 is mentioned as a probable date. If the House meets in the middle of October, or a little later, the session will synchronize in a measure with those of the United Kingdom and other empire Parliaments.

The report of the transportation commission is all ready to be handed to the Prime Minister.

It is a lengthy document, the result of a great deal of work, and Mr. Bennett and his colleagues will probably be reached as to whether or not the important report of the Royal Commission on Transportation, now ready, will be made public or held for the opening of the session so the members of Parliament may have the first look at it.

(Turn to Page 2, Col. 3)

## JOBS FOR 400 AT THE \$500

Canadian Press

Sault Ste. Marie, Ont., Sept. 12.—Four hundred men went back to work to-day in the mills of the Algoma Steel Corporation here after being idle most of the summer.

Toronto, Sept. 12.—Farm implement manufacturers have sold more products and obtained more prospects during this year's Canadian National Exhibition here than in 1931, leading machinery manufacturers agree. In one instance sales increased reached 100 per cent, with prospects touching a 500 per cent advance.

## PARAGUAYANS CLAIM VICTORY

Associated Press

Auncheon, Paraguay, Sept. 12.—Paraguayans fighting a three-day battle with Bolivians at Port Boqueron in the Chaco region "completely annihilated" the 14th Bolivian Infantry Regiment and were meeting with further successes as the fierce battle continued, the government announced to-day.

The Bolivian commander, Major Adolfo Laizola, was taken prisoner, the official bulletin said, and bodies of several other high officers were identified on the battlefield.

BOLIVIAN REPORT

La Paz, Bolivia, Sept. 12.—Bolivian army headquarters announced yesterday evening that the battle at Port Boqueron in the Chaco region was still raging at 6 p.m., and that the Bolivian troops were "resisting vigorously."

## Pattullo, Bowser Are Both Out Of Tolmie Coalition

But Premier Goes Ahead in Move For Union Government For British Columbia

Liberal Leader Preparing Statement While Ex-Premier Writes His Refusal

as leader, Mr. Pattullo also was busy this morning conferring with some men prominent in his own party. Before leaving his office he said he expected to be able to issue a statement on the whole situation to-morrow, referring inquiries in the meantime to his definite anti-coalition statements of the last two weeks.

At the same time Mr. Bowser sent a letter to the Premier saying he could not see his way clear to accept office under an arrangement as proposed.

"I beg to advise you I cannot see my way clear to enter your cabinet," were Mr. Bowser's exact words, in his letter to the Premier.

PREMIER UNDAUNTED

Premier Tolmie, however, in the face of the refusal of these two leaders to join in with him set about to continue undaunted in his negotiations for coalition. It is expected that he will issue his extended statement on the plans and purposes of his coalition to-morrow. On this he has been working during his retreat into the country from associates and communications during the last three days.

(Turn to Page 2, Col. 3)

## MANCHURIA BANDITS KILL TRAVELERS

## FIRE DESTROYS DUNCAN STORE

Conflagration Sunday Morning Destroys Stock of W. B. Powell's Store

Special to The Times

Duncan, Sept. 12.—Fire, which might have had serious results, if unchecked, was discovered in the basement of W. B. Powell's men's furnishings store in the I.O.O.F. Building on Station Street at about 11:30 o'clock Sunday morning.

Clouds of smoke issuing from the basement attracted attention, and an alarm was turned in by C. E. Purvey. The Duncan volunteer fire brigade was quickly on the spot and the danger averted. A good deal of stock kept in the basement was damaged by smoke; also stock belonging to Fox's Drygoods store in the same building. The damage is not yet estimated.

Communist Motion of No Confidence Carried By 513 Votes to 32, But Papen Says Reichstag Dissolved and No Vote Is Binding

## Supreme Court Asked to Decide

Canadian and Associated Press

Berlin, Sept. 12.—Caught napping by the Reichstag opposition, which passed a motion of no confidence before he could promulgate a decree of dissolution, Chancellor von Papen found himself to-day in a position of great uncertainty.

He will remain in charge of the government for at least several weeks longer, however, for the Supreme Court will be asked to decide the constitutionality of the most dramatic session in a long time.

A single dissenting voice could have forestalled consideration of a Communist motion coupling a declaration of no confidence, with a demand that the government's last emergency decree be rescinded. But the government had not expected this turn of events, and there was no objection to the motion.

AROSE TOO LATE

Realizing too late what was going on, the Chancellor sprang to the rostrum with his decree of dissolution, but Speaker Giering, National Socialist (Hitlerite), waved him aside, asserting: "The Reichstag is still in session."

(Turn to Page 2, Col. 6)

## Many Injured and 600 Robbed By Outlaws in Three Raids on Trains; Harbin Cut Off From Three Directions

Canadian Press

Harbin, Manchuria, Sept. 12.—Twenty-four persons were killed, upward of seventy injured and an undetermined number abducted and 600 robbed in a series of three combination bandit raids and train wrecks near here within twenty-four hours.

In addition to these casualties more than 300 were killed and several wounded in a battle between Japanese troops and Chinese bandits sixty miles farther south, near Taching. The Japanese clashed with 700 bandits who were raiding along the Chinese Eastern Railway, on which the three wrecks occurred.

## DRUG SELLER GETS SENTENCE

**Cumberland Chinaman Pleads Guilty; Must Serve Eighteen Months**

Special to The Times  
 Nanaimo, Sept. 12.—Judge Barker this morning sentenced Wing Pong, a Cumberland Chinaman, to eighteen months' imprisonment and a fine of \$250, with an extra three months if the fine is not paid.  
 The accused pleaded guilty to selling opium at Cumberland on July 15. T. Pearce of Cumberland prosecuted and L. B. Potts, defended. Lenency was asked on account of accused having thirty-nine years' residence in Canada, but His Honor said the accused had been here long enough to know that he was doing wrong.  
 Jack Grant of Victoria was this morning fined \$10 and costs by Magistrate Potts for fishing without a license at Campbell River. Game Warden Greenfield prosecuted.

## CANADIANS URGE TRADE WITH SOVIET

Canadian Press  
 Hamilton, Ont., Sept. 12.—The influence of the Trades and Labor Congress of Canada was sought at the forty-eighth annual conference here today to induce the federal government to reopen trade relations with Russia. The North Bay Ont., Lodge No. 413, Machinery, sponsored the motion.  
 Canada, said the resolution, "is losing a tremendous amount of trade by the present attitude toward Russia." The lodge was convinced that "it is economically sound for Britain, the United States and Germany, then it should be economically sound for Canada. The position taken by the United Kingdom at the recent Imperial Economic Conference demonstrated, in the opinion of the sponsors of the resolution, that trading with Russia was a sound policy."

## LABOR MEN STATE VIEWS ON THE C.N.R.

**Support of Public Ownership Voiced in Resolutions Before Canadian Body's Convention at Hamilton**

Canadian Press  
 Hamilton, Ont., Sept. 12.—Public ownership together with railway and transportation problems seems likely to play a big part in the discussions of the Trades and Labor Congress of Canada, which opened its annual convention here today. The report of the Royal Commission on Transportation, the financial situation of that great public enterprise, The Canadian National Railways, and the action of both railway companies to secure economies by reducing staffs, bring before the present meeting railway and public ownership problems with unusual emphasis.  
 The report of the executive council submitted to the congress to-day dealt extensively with the situation. It set forth that "public ownership and democratic management of all public utilities has for many years been part of the platform of principles of our congress." As a result of labor's pioneering efforts in this direction, the report says, "Canada can point with pride to its many publicly owned and operated utilities, giving, as they do, excellent service at less cost than those still under control of private interests."

In some few cases, however, the report proceeds, "in changing from private to public control, burdens of capitalization have been assumed out of all proportion to the value of assets transferred and to that extent handicapped their successful operation." The Canadian National Railways and the publicly owned steamship lines were referred to as examples of this situation.

**WOULD SET LIMITS**  
 Reference was made to the thousands of railway workers thrown out of employment as a result of railway economies and elimination of services. Proceeding, the report said:  
 "At this time, when rigid economy is so strongly advocated as the cure for existing economic ills, it is essential labor should exert its influence and co-operate with others who believe in public ownership of public utilities, to guard against this policy being carried to an extreme which would impair efficiency or impose unwarranted hardships on employees who have faithfully rendered service in building up these utilities."

**RADIO BOARD PLAN APPROVED**  
 Canadian Press  
 Hamilton, Ont., Sept. 12.—Success in extending the principle of public ownership to the radio broadcasting field was approved in the annual report of the Canadian Trades and Labor Congress executive at the forty-eighth annual conference here to-day. The report recalled with gratification that "legislation has now been enacted providing for the establishment of a commission with the necessary powers to carry on the business of broadcasting in Canada and also for the purpose of regulating and controlling broadcasting by other agencies."

The report continued:  
 "Up to the time of writing no action has been taken by the government to give effect to the provisions of the new act or to appoint the commission authorized therein."  
 Continued membership in and support of this body, according to the report, "being the best medium to protect the public interests in respect both to the creation of the necessary administrative machinery and the subsequent safeguarding of public rights in broadcasting matters."

**SEVEN KILLED AT CROSSING**  
 Family Wiped Out When Train Hits Auto in Portland Suburb

Portland, Ore., Sept. 12.—Seven persons were killed and two injured, one perhaps fatally, when a locomotive crashed into a motorcar in the suburban Milwaukee district here yesterday. The victims were Mr. and Mrs. Elwood, of Milwaukee, Ore., their three children, Barbara, eleven; Flora, six, and Betty Jean, six, and two Japanese girls, Akiko Sasaki, eight, and her cousin, Kikuyo Sasaki, eight, who were riding with the Lyon family.

**MISS S. ZELLEY OF NANAIMO PASSES**  
 Special to The Times  
 Nanaimo, Sept. 12.—Miss Annie Susan Zelley died yesterday evening at the family residence in Brechin. She was a native of England and had lived here forty years, and is survived by five sons, three of whom are in the service, Mrs. W. Timms and Mrs. J. Cronk of Alberta, Mrs. J. P. O'Flynn of Vancouver, and Miss Elsie of Nanaimo. The funeral will be held on Tuesday at 2:30 o'clock from the family residence.

 1515 107 Yates St. Open Evenings

**GOVERNOR IS CROSSING B.C.**  
 Canadian Press  
 Vancouver, Sept. 12.—After five sunny, busy days in Vancouver, Lord Bessborough, Governor-General of Canada, left Vancouver at 9:45 this morning on a special train over the C.P.R. line. From Vancouver they began their eastward journey which will take them to Penticton, Kelowna, Trail, Nelson, Cranbrook and Penticton.

During the stay in Vancouver the Governor-General's residence was on the special train at the Canadian National station. On Sunday the train was stopped at the Canadian Pacific line and the party slept there during its last night in Vancouver.

**MANCHURIAN BANDITS Kill Travelers**  
 (Continued from Page 1)  
 Twelve passengers were killed, forty-seven injured and 600 robbed in the first week when bandits descended on a regular Changshun-Harbin train at Shuangcheng. The train left Harbin late Saturday evening.  
 Six passengers were killed, fourteen injured and 100 robbed in the second week when a passenger train bound for Harbin in the neighborhood of Chengtu, on the Chinese Eastern Railway, was attacked by bandits. Several Japanese were killed, several wounded and several others were missing following the derailment and wrecking by bandits of a Japanese hospital train near Shuangcheng, a short distance west of the Changshun-Harbin line and the party slept there during its last night in Vancouver.

## TWO HURT WHEN MOTOR UPSET

Special to The Times  
 Nanaimo, Sept. 12.—Mrs. Clara Wilson of Nanaimo, sustained a broken nose, two black eyes and minor injuries when a car driven by E. Munns, in which she was riding, turned over at Comox Road, two miles north of Nanaimo. The occupants of the car narrowly escaped death. Munns suffered cuts and bruises. Mrs. Wilson was given treatment at the Nanaimo General Hospital and allowed to return home.

## Congress of Labor In Hamilton To-day

(Continued from Page 1)

seated are a large number dealing with the jobs.  
 Improvement in the conditions confronting workers a five-day week and eight-hour day, abolition of much machinery in order to give artisans work—all these things will be submitted to the convention for consideration.

**SEES PROGRESS**  
 In his speech to-day Hon. W. A. Gordon, Federal Labor Minister, said the Trades and Labor Congress was "greater than any government," and you people do not realize what progress you have made."

"Don't destroy the great work you have been doing for the past half century, by hysterical outbursts," he said. It was often difficult to see fellow workers out of work, "but don't destroy a well-regulated organization by being led away," he said.

**CARRY BURDEN**  
 Organized labor was forced to deal with malingering men who did not want to work. "That is a burden you have to carry, and it is a difficult burden," said the minister.

The government relied on organized labor, just as it relied on other organizations, for help and support, he said. It was in sympathy with the workers of labor, but all these requests could not be met.

**EMPLOYMENT INSURANCE**  
 A conference of labor organizations and public bodies to meet in Ottawa for the purpose of "preparing a resolution urging the enactment of legislation providing for a national scheme of contributory unemployment insurance" was suggested to the congress to-day by the executive, which also intended to refer the matter to the Trades and Labor Council.

Contributory unemployment insurance formed a feature of a number of other resolutions presented to the congress, some of which particularly stressed the urgency of the situation and the necessity for the government to adopt this policy at the earliest time. Support of the plan was urged by the Montreal Trades and Labor Council, and by a number of locals in Toronto, Hamilton and other centres.

Several resolutions went further, while many dealt with the need for immediate governmental action in connection with relief.  
 The Montreal Pattern Makers' Association deplored the "haphazard manner of dealing with the present serious situation," a manner which, in the opinion of that association, "was costly, without a corresponding measure of assistance, and productive of unfairness and discrimination."

The Calgary Trades and Labor Council, also pressing for immediate action in respect of unemployment insurance, demanded "adequate payments to maintain a satisfactory standard of living" and the application of that policy to all wage earners.

**VICTORIA RESOLUTION**  
 Requesting a "national contributory system," the Victoria and District Council was supported in its resolution by one from Edmonton.  
 In regard to relief payments, the Council said that the federal and provincial governments assume 90 per cent of the responsibility in view of the impoverishment of the municipalities. It also urged a uniform system of relief payments, and that any agreement entered into clearly state what an unemployed married or single man is entitled to in the way of food, clothing, fuel and shelter. All municipalities should be compelled to adhere to such a scale, the resolution suggested.

The Winnipeg council endorsed the London resolution, declaring that unless an adequate scale of relief payments is set up, "increased suffering and want, malnutrition, disease and even actual starvation are bound to be the result."

Not 90 per cent, but the whole cost of relief should be borne by the Dominion, according to the Victoria Trades and Labor Council. The Council asked the federal and provincial governments assume 90 per cent of the responsibility in view of the impoverishment of the municipalities. It also urged a uniform system of relief payments, and that any agreement entered into clearly state what an unemployed married or single man is entitled to in the way of food, clothing, fuel and shelter. All municipalities should be compelled to adhere to such a scale, the resolution suggested.

The Winnipeg council endorsed the London resolution, declaring that unless an adequate scale of relief payments is set up, "increased suffering and want, malnutrition, disease and even actual starvation are bound to be the result."

**MANCHURIAN BANDITS Kill Travelers**  
 (Continued from Page 1)  
 Twelve passengers were killed, forty-seven injured and 600 robbed in the first week when bandits descended on a regular Changshun-Harbin train at Shuangcheng. The train left Harbin late Saturday evening.  
 Six passengers were killed, fourteen injured and 100 robbed in the second week when a passenger train bound for Harbin in the neighborhood of Chengtu, on the Chinese Eastern Railway, was attacked by bandits.  1119 Wharf St.

a number of sick Japanese soldiers who were being taken to a hospital.

**USED CLUBS AS WEAPONS**  
 In another bandit raid on a golf course here, a party of British and United States players fought their way through the clubhouse, where they were wounded seriously.

All of the baggage aboard the first train was looted as well as the pockets of 600 of the passengers. Five Japanese were reported among those abducted. Doctors, nurses and first aid supplies were sent to the scene of the wreck.

**ROLLED DOWN BANK**  
 Chinese authorities said the locomotive and the first six passenger cars rolled down a steep embankment when the train struck the place where rails had been removed. The accident cut off communication with Harbin from the west, east and north.

The hold-up was carried out in the dead of night forty miles from Harbin when fifty desperadoes, having ripped up the rails, attacked when the train struck the gap in the track.

They began looting immediately, ignoring the cries of the dying. They lay in the wreckage until daylight.

Henry Billard Villard, son of Oswald Garrison Villard, publisher of a New York magazine, was a passenger and escaped unhurt, in what was described as the worst disaster in the history of the Chinese Eastern Railway.

**PROTEST BY BRITISH**  
 The British Consul-General sent a vigorous protest to the Japanese advisers of the native police here over the attack on the golfers.

The two British citizens who were wounded were a Mr. Melish, manager of a Shanghai and Hongkong banking house, and his assistant, Mr. Hansel. The bandits escaped in an automobile.

**Flying Family Missing Off Greenland**  
 (Continued from Page 1)  
 The "Flying Hutchinsons" along the southeast Greenland coast, according to radio dispatches.

The British trawler Lord Talbot had failed to report any trace of the flying family. George R. Hutchinson, his wife and two young daughters and four other men members of his party when it raced to the point where they had fled, fled, fled.

The naval flying machine No. 84, from the Danish scientific expedition headed by Dr. Knud Rasmussen, took off from Julianahab, near the southern tip of Greenland, to follow the track taken by the Hutchinsons.

**UDET SEARCHES**  
 Berlin, Sept. 12.—Ernst Udet, German war ace, who is now in Greenland with an expedition, telegraphed here to-day he and two other pilots were assisting in the search for the "flying family" of George R. Hutchinson, United States flier, who was forced to land on the ice near Angmagssalik, Greenland, yesterday.

**HOPE FADES**  
 Angmagssalik, Greenland, Sept. 12.—Amid icefields that ground against each other ominously, rescue vessels searched without much hope to-day for the flying family of George R. Hutchinson.

Their flight from New York toward Europe culminated yesterday in frantic S.O.S. calls—and then silence. Hutchinson reported their plane had been forced down off eastern Greenland on its way here from Julianahab, near the southern tip of Greenland. It was feared all eight perished in the icy water.

on a flight by easy stages over the northern transatlantic route to Europe. They hoped to be the first family to cross the Atlantic in a plane.

The British steam trawler, Lord Talbot, was twenty-five miles away when it picked up the S.O.S. signal about 10 a.m., eastern standard time yesterday. It raced for the location given, but when it got there four hours later found nothing but ice in sight. The signals were coming for about an hour as it sped through floes. Then they ceased.

**RESCUERS HUNG OUT**  
 The Governor of Greenland, Knud Rasmussen, set rescue forces to work immediately and the Lord Talbot played its searchlight over the ice for hours, but could see nothing of the plane. A fleet of boats was sent out from here during the night with orders to search the coastline area.

The thrush of the fleet against the head of the flying boat would be hard for it to stand, it was said in some quarters here, and there was a disposition to fear the plane had sunk. It was thought, possibly, the ship ran out of fuel almost within sight of its destination. In his S.O.S. call Hutchinson reported the plane's location as thirty miles due southwest of Angmagssalik.

Hutchinson's wife and two little daughters, Kathryn, eight, and Janet Lee, six, were aboard the plane, the city of Richmond. They carried their dolls and were the first child passengers on a transatlantic flight attempt.

Besides Hutchinson, the four men aboard were Peter Redpath, navigator; Gerald Orntsch, radio operator; Joseph Ruff, mechanic, and Norman Alley, newsreel camera man.

Copenhagen, Sept. 12.—Danish officials to-day were endeavoring to obtain the assistance of Knud Rasmussen, who has had varied experiences in East Greenland waters, to search for the "Flying Hutchinsons," whose plane was forced down among the ice floes of the ocean a short distance from Angmagssalik yesterday.

It was learned Rasmussen is now aboard the motor ship T. H. Staanum in Lindenoer Fjord, about 400 miles from the spot where the Hutchinsons came down.

**Papen in Duel With New Reichstag**  
 (Continued from Page 1)  
 ing the vote would be completed before anything else was taken up. It carried by 113 to 32, with fifty members abstaining.

The Chancellor maintained the vote was the act of a Parliament already dissolved, and therefore ineffective.

**STATES SEEK TESTS**  
 It was understood several states would contest the legality of the dissolution, probably Brunswick, Mecklenburg and Oldenburg, inasmuch as the Reichstag itself cannot appear while its existence is questioned by the government.

**ISSUE STATEMENT**  
 Through its press department the government, some time after to-day's sitting, announced it regarded the Reichstag's action as unconstitutional and ineffective because it was composed of a parliament already dissolved.

The constitution provides government representatives are entitled to the floor during sessions of the Reichstag, even outside the regular order of business.

The Chancellor contends he asked for the floor twice, but was denied it, and that that denial was a violation of the constitution.

Chancellor von Papen appeared on the dais at to-day's sitting, holding in his hands the decree of dissolution which had been signed a week ago by President von Hindenburg for just such an emergency.

The Chancellor talked with Speaker Goering, who gesticulated, shook his head and refused to listen.

Later it was reported Herr von Papen had yielded his decree of dissolution, but the Speaker would pay no heed to him pending completion of the vote which was to express no confidence in the ministry.

Despite the parliamentary upset, there was no immediate talk about resignation by the Von Papen Government.

Many parliamentarians agreed that while the Reichstag demonstration of independence was effective and showed an open breach between the baronial cabinet and the representatives of the people, still from the legal point of view the Reichstag must be considered dissolved.

**SURPRISES FOR PEOPLE**  
 The Reichstag session was crisscrossed with surprises. The apparently innocuous communist motion caught the government napping, and when the dissolution decree came in seemingly had little effect on the members.

The Legislature adjourned until tomorrow and meanwhile the Council of Elders was called to debate future procedure.

**Liquor Board Audit Starts in Manitoba**  
 (Continued from Page 1)  
 "There have been brought to my attention," said the Attorney-General, and to the attention of the members of the Government Liquor Control Commission certain rumors which have become widespread during the last few days regarding the conduct of the business of the commission. These rumors suggest shortages, improper practices and other irregularities too numerous to mention that appear to involve the members and staff of the commission."

"Personally, I have refused to listen to any of them, for my close association with the work of the commission and the enforcement of the liquor law, and the knowledge I have obtained regarding the conduct of the affairs convinced me no irregularities could exist without detection by the commission."

"I have conferred with the members of the commission and they assure me the rumors are entirely unfounded, and in justice to them they have requested, and I have readily agreed to, the appointment of a chartered accountant, who has been instructed to investigate and report to me the sufficiency and accuracy of the audit of the affairs of the commission."

**Hon. M. A. Macdonald Spoke at Alberni**  
 Special to The Times  
 Port Alberni, Sept. 12.—On Friday evening at the Eagles Hall Mr. Justice M. A. Macdonald addressed a joint meeting of the Canadian Men and Women's Clubs of Alberni district. C. A. Macdonald was chairman. The subject of the address was "The Pacific Bowl" and conveyed a vision of the Pacific races of the future, commercially and industrially.

The funeral of Alexander Matthew Mackay was held on Friday at Alberni cemetery, Rev. A. McLean officiating. He was for twenty years a resident of Alberni.

The late Mr. Mackay is survived by his widow, three sons and five daughters. Mrs. T. M. Patterson of Alberni, Mrs. E. Wattle and Miss Margaret Mackay of Vancouver; Mrs. A. T. Turner of Duluth, and Mrs. J. Carstairs of Scotland; Alexander of Victoria; Kenneth of San Diego, and James of Duluth.

## TOM LONGBOAT LOSES HIS SON

**Boy of Five Killed By Auto: Other Fatal Accidents in Ontario**

Canadian Press  
 Toronto, Sept. 12.—Deaths from motor cars in Ontario to-day stood increased by three as result of accidents over the week-end. Three more persons came to untimely ends as the result of other accidents.

Clifford Longboat, five-year-old son of Tom Longboat, an Indian, famous years ago as a marathon runner, was struck and fatally injured by an automobile Saturday in Toronto.

Walter Parkhill, twenty-six, of Niagara Falls, N.Y., was killed when his automobile overturned in a ditch near Niagara-on-the-Lake Saturday.

Nine-year-old Lottie Cornelle, daughter of Mr. and Mrs. Martin Cornelle, of Howard, was struck by an automobile on the Howard-Harwich town line and died in a hospital.

Oscar Yitulan, of Kirkland Lake, was struck by a flying piece of a bus-saw he had been operating Saturday and died.

Leonard Train, thirty-five, Toronto, crashed to his death Saturday at Nobleton when his one-seater plane nosedived from an altitude of 200 feet.

Mrs. Joseph Belair was drowned at Wylie Camp near Kenora Sunday when she slipped from a rock into deep water. She was drawing a pail of water from the lake at the time.

**Pattullo, Bowser Are Both Out Of Tolmie Coalition**  
 (Continued from Page 1)  
 J. W. deB. Farris, K.C., one of the Vancouver Liberals prominently mentioned as a member of a coalition government under Dr. Tolmie, was in Victoria to-day. He was busy at the courts all morning, but it was considered possible he might talk matters over with the Premier or other politicians before returning to Vancouver.

"I have better public temperament throughout the interior of the province with regard to more settled conditions than a year ago," said Mr. Pattullo, speaking of his tour. "The public mind is settling down. They are seeing the hard times through and know it is just a matter of working things out."

"Everywhere we went we were greeted by enthusiastic Liberal meetings. I have never seen anything like it. The political temper of the country is quite emphatic as to its attitude. One does not have to see much expression of it in the interior. I know what it is."

Mr. Pattullo said that the sentiment he found in all of his eighteen meetings in the interior was strongly against Tolmie coalition.

**IDENTIFICATION EFFORTS FAIL**  
 Vancouver, Sept. 12 (Canadian Press)—No identification has yet been made of the prowler who was shot to death at Hood Point, Bowen Island, Howe Sound, last Wednesday evening, after he had broken into the house of R. E. Shields of Vancouver. The man was shot by Ernest Priestley, watchman and special provincial constable.

## BUS FOR WORLD'S FAIR SIGHTSEERS

Visitors to Chicago's 1933 Century of Progress Exposition will get their eyes full seeing sights from a fleet of buses like the one above, a few of which already have been put in operation. The buses will make tours of the exhibition grounds, stopping at various places. The vehicles will travel over special roads and be directed by a special traffic system put into effect for the duration of the exposition.

BRAZIL ADOPTS  
AGA BEACONS

Automatic Light, Similar to Those on B.C. Coast, Installed in South America

Powerful Plant Designed to Guide Airships as Well as Shipping

Stockholm, Sweden, Sept. 12.—A spectacular engineering feat carried out in the face of almost insurmountable hardships and difficulties was performed by a subsidiary of the Swedish Air Company, in building a lighthouse for aviation and shipping on a desolate reef off the Brazilian coast.

The work was carried out on the almost inaccessible islands Penedos de Sao Pedro e Sao Paulo, and it was primarily the needs of transatlantic aviation that decided the Brazilian government to have this lighthouse constructed. Owing to the great difficulty in landing on the rugged and forbidding rocks the only possibility was to select an Aga beacon, the well-known invention of Dr. G. D. Blen, a Swedish Nobel prize winner, who lost his sight while experimenting with the accumulation of gas needed for these lights.

The Aga beacons through an ingenious device, called the "sun-valve," function automatically, extinguishing at daylight and lighting at dark or in fog without being touched by a human hand for more than a year. When the gas mantle is burnt out it is automatically replaced.

**RESERVE BEACON**  
Besides this lighthouse, said to be one of the most powerful in the South American waters, a reserve beacon has been built on the same islands and constructed so as to function automatically if the main light should go out of order. A third Aga light-house intended for the same flying route has been built at Calcanhar in the state of Rio Grande del Norte at the point where the aviators arrive at the coast of Brazil.

The members of the building expedition, when trying to land on the island, were forced to dig away before laying the foundation. The heat was terrific and the men lived on fish, dried meat, beans and rice for months. The fish was so abundant and easy to catch that a humorous member of the expedition baptised it "Me pega por favor," meaning "be so kind as to pull me up." For the foundation six tons of concrete and ten tons of water had to be carried up the steep side of the rock more than fifty feet high.

In spite of all these difficulties the lighthouse was at last completed and the event celebrated by a magnificent display of fireworks that almost scared the feathered inhabitants of the lonely islands out of their wits and attracted thousands of sharks that swarmed around the cliff.

Aga automatic beacons, of similar type to the one installed on the Brazilian coast, have been very successfully used in British Columbia coast lighthouses.

CRIMINALS IN  
U.S. BONUS ARMY

Attorney-General Says 1,069 of Those Who Visited Washington Had Police Records

Washington, Sept. 12.—Quoting police and other official records, Attorney-General Mitchell reported to President Hoover at the week-end that the United States "bonus army" which gathered here last summer probably "brought into the city of Washington the largest aggregation of criminals that had ever been assembled in the city at one time."

While the army contained "a very considerable number" of genuine war veterans, of good intentions and clean records, the Attorney-General said there was definite proof that of the 4,723 who applied for transportation home, 1,069 had police records and 822 of these had been convicted; that out of the first 3,656 named on the roster of the bonus army, 877 could not be identified as ex-service men; and that known Communists not only had promoted the march on Washington but sought to incite the marchers to disorder.

In a statement-making public the Attorney-General's 4,000-word report, President Hoover declared the findings would "correct many misstatements," but "should not be taken to reflect on the many thousands of honest, law-abiding men who came to Washington with full right of presentation of their views to Congress."

Changchun, Manchuria, Sept. 12.—The Manchukuo government (Manchuria), to-day ordered that no woman shall be permitted to marry before she attains the age of eighteen and a limit of twenty years was placed against males. It was announced the step was taken in order that Manchukuo "shall have strong and healthy children."

BERN STATEMENT  
IS ANTICIPATED

Associated Press  
Los Angeles, Sept. 12.—Silence as to the motive for the suicide by shooting a week ago of Paul Bern, motion picture producer, continued to-day after a long conference between his brother, Henry Bern, of New York, and the film star widow, the former Jean Carroll.

A statement clearing up the strange case, with its complications of a mysterious woman in Paul Bern's past and a farewell note to Miss Harlow, speaking of a "great wrong" and Bern's "abject humiliation," was forecast by Mendel Silberg, counsel for the widow. Henry Bern had said after he had talked again with Mrs. Bern.

## TELEGRAPH BRIEFS

Flin Flon, Man., Sept. 12.—Beaver Lake, a few miles west of here in northern Saskatchewan, may become one of the leading fur raising centers of Canada, it is believed, following success attained in breeding beavers on a ranch established a year ago. The climate and feeding facilities of northern Saskatchewan are believed ideal for the industry. Most of the animals born here are superior to parents, both in size and quality of fur.

Dublin, Sept. 12.—An Irish Academy of Letters, which among other things will be in a position to discuss the touchy question of censorship with the government with far greater force than can individual writers, is being formed by William Butler Yeats, the poet, and George Bernard Shaw. It will be strictly an academy of literature and criticism and in no way an academy of learning, of which Ireland already has one, Yeats says. The first members will be selected by Yeats and Shaw. After that they will be elected by the membership of the academy. The number is to be held low, probably not more than thirty.

Copenhagen, Sept. 12.—It is officially announced the Prince of Wales will open the Anglo-Danish Exposition September 24.

Kitchener, Ont., Sept. 12.—Success crowned the efforts of two boys when they invaded what has been regarded hitherto as women's precinct at the Woolwich Township school fair. Ralph Howie and Quinny Brokman were the youths. Leading all countries, girls included, Howie won the sponge cake competition and Brokman stitched the two best buttonholes and buttons.

Montreal, Sept. 12.—Chief Justice Eugene LaFontaine of the Quebec Court of Appeal, has resigned owing to ill health. Announcement was made over the week-end. He had been for thirty-six years on the bench.

Melville, Sask., Sept. 12.—Judicial inquiry into alleged irregularities in the management of the Melville police force ended here Saturday afternoon after submission of evidence adduced to show private crime investigations had been conducted by Councillor Bailey, chairman of the police commission, without consultation with Chief of Police Baillie. Judge Wylie's report will be given at a future date.

Vancouver, Sept. 12.—Jack Cummins, Newport, Hotel, Granville Street, was attacked by street thugs Saturday evening and was beaten and robbed of \$46. The attack was made at 10 o'clock as Mr. Cummins was passing the mouth of an alley at Davis and Howe Streets. He was stricken and thrown to the street and three men set on him, beating him about the head and taking his money from his pockets.

## STUDIES AVIATION

Aviation in the United States is in for a lot of scrutiny by a representative of Great Britain. He is Captain E. J. Fleness of the Royal Air Force and military attaché of the British embassy at Washington for the past two years. Captain Fleness, shown above, has just completed a survey of southern California's military aviation units and factory groups.

VALERA STATES  
HE WILL WIN

Demands Free Hand in Choosing Arbitrators to Meet British

Canadian Press  
Kilkenny, Ireland, Sept. 12.—President Eamon de Valera reaffirmed his stand on the question of the payment of land annuities to the United Kingdom in a speech here yesterday. "Britain will have to prove title to the annuities in a fair court," the President declared.

"We are prepared to agree to arbitration, but there is to be no restriction whatever on the choice of our nominees. The choice of nominees by each party and of the chairman should be without restriction," he said. "We are going to fight and win," he declared. "We must be prepared to make sacrifices for it is not easy to bargain with Britain."

The Irish Free State President argued the present plight of Irish farmers was not entirely due to the "Thomas duties," but also to the fact that the purchasing power of the people of the United Kingdom was steadily dwindling and they were forced to buy chilled instead of fresh meat.

**VOLUNTEER ARMY**  
Mr. de Valera denied any intimidation existed in the Free State or that the government was conniving in the order. The government did not welcome the formation of the "white army" because it was unnecessary, as the government itself was making arrangements for a volunteer army throughout the country under the strict control of the government and no other would be tolerated.

"If we wanted 50,000 men tomorrow, we could have them," asserted Mr. de Valera. "There are people across the water waiting patiently for something to develop in the Irish Free State which will get them out of their present difficulties. We have no fear on that account."

DR. C. WILLIAMS  
DIES AT TRAIL

Well Known in Province as Physician and Surgeon; Born in P.E.I.

Trail, B.C., Sept. 12.—Dr. Cyril Stanley Williams, one of the west's outstanding surgeons, died yesterday in the Trail-Tadema Hospital after an illness of two months.

He had attained eminence in surgery and four years ago was made a fellow of the American College of Surgeons. The son of Mr. and Mrs. Robert Williams, he was born at Poplar Grove, P.E.I., in January, 1878. He received his early education at rural schools, and matriculated into the Prince of Wales College at Charlottetown in 1898. Having graduated as a teacher, he taught school on Prince Edward Island for three years, being on the staff of the Freehold and Birch schools, respectively.

Leaving the teaching profession, he entered McGill University in 1902, graduating in medicine four years later. He was an intern for two years at the Royal Victoria Hospital, Montreal, and in 1908 came to British Columbia.

**LIVED ON VANCOUVER ISLAND**  
Dr. Williams practiced for a time in the small town of Courtenay, B.C., before coming to Trail. He was an active member of the Trail Rotary Club.

Surviving the doctor are a widow and daughter, a daughter by his first wife, Rosella Barbara of Charlottetown, two brothers, Harry of Poplar Grove, Livingston of McNeill's Mill, P.E.I., four sisters, Mrs. Herbert Rodd, Northam, P.E.I., Mrs. Ray Gorrill, Winnipeg; Mrs. Lewis Newcome, Bocton, and Mrs. Alfred Lyle in this province.

Throughout his residence in Trail, Dr. Williams was actively interested in community welfare work. He was a past president of Trail Rotary Club.

**Advice As to How To Avoid Heart Disease**

Canadian Press  
Winnipeg, Sept. 12.—Consider the Chinese and his ways, and avoid heart disease, was the advice of Dr. George C. Hale of London, Ont., indirectly gave the public in an address at the closing session of the annual convention of the Manitoba Medical Association here Sunday.

"Certain races suffer from angina pectoris more than others," Dr. Hale said. "Ore rarely finds the Chinese affected, while the Europeans and the British are frequently victims of it. And this is largely due to the difference in temperament. Though the Chinese may appear excited, they are philosophical and keep a calm mind, while the British inhibit their excitement and worry under a calm exterior."

NEW FIELDS  
FOR SCIENCE

Dr. R. A. Millikan Addresses Sunday Audience in Winnipeg

Canadian Press  
Winnipeg, Sept. 12.—The world of science has thrown overboard its most respective dogmas and is "appealing with experiments to the tribunal of facts," Dr. Robert Andrews Millikan, eminent physicist who has been investigating cosmic rays in Canada's northland, told a packed audience of over 2,500 people in Westminster United Church here yesterday.

Without a word as to the results of the important discoveries he is believed to have made at Comstock Lake, Manitoba, as to the behaviour of the cosmic rays in northern latitudes, Dr. Millikan outlined the influence the new science has had on "man's conception of the supreme and primal force we call God." He said he was convinced science was not undermining religion; and the world would see increasing relations between the two forces.

Going back to Galileo as the father of modern science, Dr. Millikan said that scientist's discovery of the scientific method had laid the foundations for an advance in the last hundred years greater than had been achieved in all the 4,000 years before, and made possible all recent inventions. Where man previously had been merely a suppliant of a capricious deity, he now saw himself as a vital agent in the march of progress, the speaker declared.

**ERA OF CHANGE**  
The encyclopaedists of the late eighteenth century had come to rely on a mechanical materialism which admitted of no change, but the last quarter of the nineteenth century found scientists discarding any hint of determinism and sticking more doggedly to the brute facts which were the essence of Galileo's method. The dogma of conservation of matter was thrown out when it was found matter was dissipated into the ether. The dogma of the constant reaction of bodies in the universe went by the board when it was discovered slowly moving bodies reacted differently to those moving at high speeds, and for it was substituted the theory of relativity.

The modern scientist, said the California physicist, achieved progress by a constant challenging of facts by experiment, and proved the accuracy of his outlook by "swapping ideas" and extracting whatever in his experience was common to that of other scientists.

STUBBORN FIGHT  
IN CHACO REGION

Associated Press  
La Paz, Sept. 12.—The army headquarters announced Sunday that re-informed Paraguayan troops had launched a third attack on strategic Fort Boqueron in the Chaco, and that the battle continued throughout the daylight hours.

The Bolivian troops were declared to be "resisting vigorously" at last advice.

It was also asserted the Paraguayan forces had renewed their attack against the nearby fort Agua Rica, and that desperate fighting was in progress.

The first attack on Boqueron was launched a third time on Saturday evening. The Bolivian government communique said both were repulsed after the Paraguayans had sustained severe losses.

Figs have been successfully grown and ripened on Vancouver Island.

## SUICIDE IN ALBERTA

Calgary, Sept. 12.—Investigation was under way to-day into the death of William A. Caffery, manager of the Provincial Hatcheries here, whose body was found late Saturday hanging on a rope from a tree near Wesselshead Bridge. Mr. Caffery had been missing for four days.

Widely known by poultry breeders in

western Canada, Mr. Caffery aroused considerable interest two years ago through his experiments in breeding chickens of varied colors. The colors were obtained through injecting a serum into the eggs just prior to hatching.

Silica sand, technically known as silicic acid, is being mined on Black Island, Lake Manitoba.

September Home Prices  
Lowest In 15 Years

September is the GREATEST and BEST month of all the year to SELL your home.

Families with children want to be near a school. Families with children are "watching" the ads and marking the "bargains" these nights, then later they ride around to look at the place.

If you want to SELL your home, this is the time, and a well written For Sale Ad will do the JOB.

No other way reaches as many people and costs so LITTLE.

Chances are you will be left with the place on your hands with a chance of carrying it over the winter if you do not ADVERTISE IT NOW.

Call E 4175 and start action. Be sure to put in your ad when the place can be seen and remember, to SELL it, it must be a BARGAIN.

## CHANCELLOR VON PAPEN KNOWS WHERE HE STANDS NOW

From this distance it is not easy to speculate on the consequences of the proceedings in the German Reichstag this afternoon. The news of the business transacted, however, is that the Communists sprung a motion of no confidence in the cabinet of Chancellor Franz von Papen and succeeded in getting 513 of the 604 members of the legislature to vote for it against thirty-two who opposed it. Fifty members abstained from voting; so on this computation there were only nine absentees—a striking suggestion that Germany's legislators are on their toes.

As the leader of the government, Chancellor von Papen, already furnished with a decree to dissolve the Reichstag, so as to avoid defeat on a no confidence motion, was outwitted by the Communist party of eighty-nine members under the leadership of Ernst Thälmann, who evidently were permitted by Nazi Speaker Goering to get their motion before the House and have it voted on. The dispatch reaching The Times as this is written says that von Papen appeared on the Dias holding in his hands the decree in question; but Speaker Goering refused to listen to him, implying that since his government had been defeated, he had no authority to issue orders. The upshot of this extraordinary business is that the Reichstag stands adjourned until to-morrow, although many parliamentarians, notwithstanding the open breach between the "monocle ministry" and the representatives of the people, consider from the legal point of view that the Reichstag really stands dissolved. It would seem certain, however, that there will be a session to-morrow unless the Chancellor and his colleagues choose to recognize the handwriting on the wall.

What has happened in Berlin, to-day, of course, is a manifestation on the part of the representatives of the people of Germany that they will not tolerate government any longer by a clique which is militarist and monarchist. It is a sign that they regard the Constitution of Weimar as something more than a scrap of paper, that it must be defended at all costs. The fly in the ointment for the time being is Adolf Hitler. His defence of the constitution is supposed to be tempered by several policies which conflict with representative and tolerant government in many respects. But he is young and hot-headed; and in office, or in association with more experienced parliamentarians, he may be persuaded to drop some of them, especially, for instance, his anti-Jewish attitude and his bitter hatred of France.

The interesting feature of to-day's developments is the joint action in voting against the Von Papen government by the eighty-nine Communists and the 229 Nazis—both parties in the bitterest of conflict. And, of course, they have been fighting one another for months—in fact their antagonism has been the cause of most of the recent bloodshed. But their votes to-day mean nothing if they do not mean that they will not stand the Von Papen government at any price. It is another case of politics making strange bedfellows.

## "PROFESSOR SKINNER," OR MR. MONTAGU NORMAN, IS BACK IN LONDON

When Mr. Montagu Norman, the governor of the Bank of England, left London for the United States as "Professor Skinner" he incurred the wrath of a considerable section of the British press. The choice of his alias was the butt of the humorists; but serious criticism came from several journals which wanted to know why it was necessary, if he was going to the United States on business, for him to veil his movements in such rather questionable secrecy. He is now back in London and, according to Mr. A. C. Cummings, in his dispatch to The Vancouver Daily Province, he "finds himself the most criticized private citizen in the United Kingdom."

Those who oppose what is believed to be his policy of putting Britain back on the gold standard complain that he is investing the prosaic business of banking "with an air of melodrama and stage mystery contrary to all the sober traditions of the City of London, and calculated to lower its financial prestige abroad." Mr. Cummings quotes The Daily Herald, which perhaps follows the comings and goings of Mr. Montagu Norman more closely than other newspapers, as follows:

He has surely done more than any man by his passion for secret journeys which are never secret and for all the publicity which inevitably accompanies the various impersonations of himself he is so fond of giving to bring the Bank of England into disrepute and to convince the ordinary man that the highly serious business of finance is best taken out of the hands of one who, while his friends protest that he dislikes the limelight, shows so great a desire for the type of publicity normally courted more by film stars than by bankers.

Mr. Norman has held the position of Governor of the Bank of England longer than any governor in the history of the bank, and as the election for this position will be held shortly, there is a good deal of speculation as to whether he will be elected to continue in that role in view of the attacks which recently have been made upon his mysterious movements. With the payment by the British treasury on Saturday of one hundred million dollars borrowed from France in a vain effort to maintain the gold standard last year, Mr. Cummings's dispatch points out, another aspect of banking comes under criticism. The Manchester Guardian remarks

that the Bank of England lost forty million dollars on its repayments of credits already and the British treasury probably sixty or sixty-five millions.

"The government has displayed ingenious schemes," The Guardian says, "to show that the loss is offset by the enhanced value of gold in terms of sterling now in the Bank of England, but this is only a matter of domestic accountancy. As a matter of international accounting the British treasury lost probably one hundred million dollars on the abortive attempt to maintain the pound above its market value."

## VANCOUVER NOW HAS ITS TUBERCULOSIS PREVENTORIUM

The citizens of Vancouver are to be congratulated on the establishment there of a Preventorium—a home for children who have been exposed to tuberculosis, and which Governor-General Beasborough opened yesterday.

Various service and other organizations in Vancouver have raised the funds for this institution. Its purpose is simple. It will now be possible for children coming from homes where members of the family have been suffering from tuberculosis to be examined and trained to take care of themselves.

Tuberculosis in its early stages need worry nobody if proper care and treatment can be provided. Many of the old theories about its cure have been jettisoned. At one time, we were told, it was climate and practically nothing else which would cure the disease. In many cases, of course, it is a valuable aid in conjunction with proper care in other respects.

As the name implies, however, a preventorium is not only the right way to go about checking the progress of the disease by education; it also is the cheapest way for the state in the long run.

## THE MODERN BOY

Just about the most completely useless thing a man can do is to utter lamentations about the shortcomings of modern youth. Educators, more than anyone else, ought to know this; and it is a bit surprising to find such a man as Cuthbert Blakiston, headmaster of Lancing College, England, declaring publicly that school boys nowadays are "cowardly, untruthful, easily bored, vain and dishonest."

Naturally, this blast drew a flock of replies, most spirited of which was that voiced by Dr. James E. West, chief scout executive of the Boy Scouts of America, who insisted that the modern boy is a better chap than his father was, and not a worse one.

But the defence of the modern boy is not a matter that need detain us. The interesting thing is trying to figure out just why any adult should ever feel called on to open an attack like Mr. Blakiston's.

Boyhood is more or less what we growups make it. It comes into a world which will shape it and mould it, and it is not in the least responsible for what that world is. We adults are responsible. If we find boyhood growing deceitful, cowardly and frivolous, we have no one but ourselves to blame.

For boyhood wants, more than anything else on earth, someone to look up to, someone on whom it can model itself. It is pathetically eager to please the grownup world, and it will take almost any path that the grownup world indicates. And if, to-day, it finds itself in a world where good models are scarce, where honesty and courage and sincerity do not seem to command a very high premium—well, whose fault is that?

The world is in a sad mess these days, and if it ever gets out of it it will be because of the boys that are just now growing toward manhood. We have precious little call to be critical.

Just when we were beginning to feel that economic conditions were on the mend, Mr. Roger Babson, New York stock market statistician, spoils the rosy picture by again declaring that "we have rounded the corner." If Mr. Babson would only declare that things were getting worse we would have solid ground for optimism, because then we would know that they were getting better.

## WHAT OTHER PAPERS SAY

**RUSSIA HAS HUGE MILITARY ORGANIZATION**  
The Calgary Herald

It would be a great mistake to assume that the failure of the Russian authorities to challenge Japanese aggression in Manchuria was an evidence of military weakness. Those familiar with the aims and objects of the Soviet Junta attribute the supineness in the Manchurian situation to the fact that Russia has not yet completed its preparation for war. It will bide its time and in the meantime it is building up the most gigantic military organization in history.

A writer in Current History, Elias Tobenkin, former correspondent in Russia for The New York Herald-Tribune, explains the comparative smallness of the standing army in Russia. This Red army is not an army of soldiers but of officers. The soldiers are the whole of the Russian people. In the Soviet Union, he says, every citizen is familiar with some branch of military science and war tactics. Sixty million children under seventeen years of age receive military training in connection with their school work. Sixty thousand "military circles" are devoted to the training of workers, clerks and office holders, and at present these number 12,000,000 members. The universities are schools of army tactics and even sport has been militarized. The Comsomols, or League of Communist Youth, has five million members between the ages of sixteen and twenty-three who are given specialized courses in addition to the regular military training required of all school and factory youths. Their training approximates that of the regular soldier. Two million women are being prepared in case of war to take the place of men on the farms, in industry, in commerce and as city officials. A quarter of a million women are training for regular army service. Aviation is being developed in a high degree, last year \$75,000,000 being spent on its promotion.

## A THOUGHT

Learn to do well; speak judgment, relieve the oppressed, judge the fatherless, plead for the widow.—Isaiah 1:17.

A rich man without charity is a rogue.—Fielding.

## Loose Ends

This column's inside information comes out at last—but in a nice quiet way, written in blue pencil—There is no thrill left in politics—So it is necessary to announce a new platform.

By H. B. W.

WELL, WELL. There was a crisis over James Bay after all. Even I am forced to admit it and to take some notice of it at last. Even the politicians who assured me with tears in their eyes after day that nothing could possibly happen, that I was doing the country a grave wrong in suggesting that something might happen—even they, now that it has actually happened, admit that there may be something in the rumor. Yes, the Premier did go out to his farm, week ago, I announced exclusively in this column, he did seek wisdom from the good land of Saanich among the whispering corn and the mist of autumn, rather than the whispering politicians and the mists of politics, and I think he did find wisdom. Anyway, something has happened, something more is going to happen and I feel better already.

DARE SAY you imagine, if you are a loyal voter and a good citizen, that when a prime minister goes out to his farm and decides to change the course of politics, to raise his political life and form a union government, that the thing is accomplished with some fitting ceremonies, some adequate and decent ritual. You would expect at least a flourish of trumpets and a drum or two as a prime minister proclaims the end of one epoch and the beginning of another. Alas, there seems to be no color, no imagery left in our public life, and the most important announcements are invariably made with the least fuss, usually behind a pillar in the hall while the eminent announcer is hurrying out to lunch or getting an apple from the slot machine.

IN THIS CASE, according to the political correspondents, and it was perhaps the most important case in a quarter of a century, since we went in for party politics—in this case the Premier's announcement was made in the most informal fashion imaginable. The announcement, these authorities state, was written by the Premier in his own round hand with a big blue pencil and read to the representatives of the press as he walked up and down his paneled office, his hands thrust deep into those horizontally-cut trouser pockets of his which are relics of good old honky days. The great plunge into non-party politics was thus accomplished almost without a splash.

THAT IS OUR traditional British Columbia method. All important announcements of late years have been made in just that way, in a business-like fashion but with a deplorable lack of color and excitement. I recall a number of just that style. When John Oliver decided on the famous P.E.A. inquiry which finally ousted the Provincial Party in 1924, he mentioned it to a few of us one afternoon as he was eating an apple in the corridor and watching the crows eating worms on the lawn; and having mentioned that this inquiry would take place, that he would personally be on trial for his political life, he went on to remark what very fine apples the country was producing and what very fine worms the crows seemed to be getting on the lawn.

A COUPLE of months later, when he decided to go to the country in his last election, he came out of his office one day at lunch time, started down the corridor with his hat on and merely said, "June 22." (I think that was the date of the election.) It never occurred to him to say anything more. When Dr. MacLean was elected leader of his party and successor to Mr. Oliver, he came down to the press room one night smoking a cigarette and told the boys that he had been chosen by the caucus and he was going home to bed. Mr. Bowser announced his retirement from politics in 1924 to a newspaper reporter over the telephone, and on that famous day in Kamloops, just before Dr. Tolmie was chosen leader, Mr. Bowser announced that he would not seek the leadership after all, while he was sitting at a desk with some friends in a restaurant down the street. Two of the leading ministers of the present government first heard that they were going to be called into the cabinet about 3 o'clock one morning as they were coming over from Vancouver on the boat. A fellow clad only in pyjamas and half asleep told them. It turned out he was right. Politics are rough and ready in this primitive pioneer land.

THEY ARE too rough and ready for me, so much against my own inclinations but to serve the public, and to help fill this column to-day, I am sorry to announce that I am about to form my own union government. It will be composed of the best mind of the country, which it is not necessary for me to specify, it will hold office as long as it possibly can and it will do the very best it can for itself. I am authorized to announce my platform to-day, covering as it does every phase of governmental activity, as follows:

Finance: I'm against it. Reduction in the size of the Legislature: About ten inches around the waistline per member.

Reduction in the size of the Cabinet: Make it twelve. I mean, make the reduction twelve inches.

Social Services: Food and drink in good quantity and quality to be served at all government receptions. Extra police needed to handle the crowds will be paid out of a special tax on movies which show the latest fashions in lingerie. (They can stand it.)

Care of the Insane: Provide com-

## KIRK'S Wellington Coal

"Does Last Longer"

fortable but not luxurious quarters for all men who are willing to accept public work at this time.

Public Works: Cut down all trees in Parliament Square as a matter of common humanity to save them from starving slowly to death with the maples; hand the men who failed to save the maples to the maples before they are cut down; don't cut the men down until it is too late.

Administration of Justice: Release Ursus Kermode from cage in Beacon Hill Park and imprison City Council therein to provide greater attraction for tourists and students of wild life.

Conservation of Natural Beauty: Hang, draw and quarter all gardeners who grow pink geraniums beside purple begonias on Parliament Building lawns; limit landladies in lawns to ten per square foot because the present provision seems vulgar and ostentatious in hard times like these; insist that frock coats of cabinet ministers at opening of House fit within four sizes.

Education: All statements to be educated by reading this column every night before going to sleep and not going to sleep afterwards.

Agriculture: Minister of agriculture may wear spats at his own risk; removal of sand from spinach; no spinach to be served in a public or private place; capital punishment for anyone serving spinach.

Liquor Administration—Sale of Mr. Beak's brew in government liquor stores so that they may offer beer for human consumption.

Patronage: I'm against it. (For the other fellows.)

Sale of P.E.A.: I doubt it.

Higher Taxation: Now why bring that up?

## ST. LAWRENCE PACT OPPOSED

Trades and Labor Congress in Convention Hears Case Against Waterways Treaty

Hamilton, Sept. 12.—The St. Lawrence deep waterways treaty between the United States and Canada is up for discussion in the Trades and Labor Congress convention, which opened here to-day. A resolution opposing the project was submitted by Toronto Lodge No. 371, Machinists.

The resolution outlines the heavy national debt at present resting on Canada and contends that "building of the proposed waterway will largely benefit the United States by handing to them electrical energy for the operation of their industries, a condition that will not help the workers of this country."

Canadian workers, the resolution declares, "have been repeatedly told by the government when seeking social legislation that the federal treasury was not in a position to finance such legislation."

The resolution concludes by asking the convention to petition "the federal government to refrain from spending millions of dollars to create greater inequality in the distribution of wealth, and to the Royal Canadian Mounted Police, then at Work Point Barracks, was not behindhand in its respect for the venerable chaplain.

On the death of Bishop Lemmens in 1927, Monsignor Nicolay acted as administrator of the diocese, an office which he also filled between the departure of Archbishop Christie and the appointment of Bishop, afterwards Archbishop, Orti. In 1927 he was appointed by Archbishop Orti to Lady Smith, then a rapidly-growing community. Here he built the solid school structure still occupied by the Sisters of Charity.

HONORED ON RETIREMENT

In 1913 conscious of his advancing years and failing strength, he obtained leave of absence to revisit his native country. Once there he was prevailed upon by relatives and friends to spend his last days among the scenes of his youth. He kept, however, in continual touch with Victoria, and showed the keenest interest in local developments. On the golden jubilee of his ordination in 1926, a substantial cheque was the visible expression of the deep respect

## Memory Of Veteran Priest To Be Honored At Service

Solemn High Mass at St. Andrew's To-morrow For Late Father Nicolay

Came to Victoria Fifty-six Years Ago as Missionary; Died Last Month

Solemn High Mass will be sung at St. Andrew's Cathedral to-morrow morning at 8 o'clock for Right Reverend Joseph Nicolay, who was rector of St. Andrew's forty years ago. Father Nicolay died in Holland on August 23 at the age of eighty-two years, of which thirty-seven years were spent in the service of the church on Vancouver Island.

As a missionary on the West Coast, rector of St. Andrew's, vicar-general to the Bishop and administrator of the diocese, Father Nicolay was known to thousands of pioneers here and his memory is deeply revered.

Educated at the American College in the University of Louvain, he arrived in Victoria on August 21, 1876, with Rev. J. N. afterwards Bishop Lemmens. Received by Bishop Seghers at the one-story log house on Collium Street, which at that time served as the Bishop's Palace, the young priest was assigned to the West Coast Indian mission at Kyquoot, where he remained until 1887. Here, in the company of Father Brabant, he spent ten years in the apostolic missionary work among both Indians and white settlers; his self-sacrificing generosity endeared him to all classes and many traces of his work during that time are still to be found in the district.

MADE VICAR-GENERAL

Recalled to Victoria he was appointed rector of St. Andrew's Cathedral, occupying this position first at the old building on View Street and later at the present cathedral, opened in 1900. On the death of Father Jonckau in 1888, Father Nicolay succeeded him as vicar-general to the bishop of the diocese.

In 1896, Monsignor Nicolay (the title of monsignor is now given to vicars—generally succeeded Father Jonckau in another appointment, namely as parish priest of St. Joseph's, Esquimalt. His years at Esquimalt and his noteworthy for the activities of the British navy in Esquimalt harbor. As Admiral Bickford was a faithful member of the St. Joseph's congregation, his sympathetic co-operation resulted in many improvements to the Catholic property in the parish. The church, built by Father Jonckau in 1879, was enlarged by the addition of the transept, while many objects connected with Catholic worship were presented to the church by the Catholic men of the various ships of the station. These souvenirs, bearing the names of the leaders, Varsipite, Amphion, Concorde and also of Admiral Bickford, are carefully preserved in the new Queen of Peace Church as perpetuating the memory both of the donors and of Father Nicolay out of respect for whom they were given.

ENLARGED PROPERTY

Father Nicolay also by the acquisition of adjacent lots enlarged the property, built the priest's house and with the assistance of working parties from the navy laid out the beautiful garden around it. The Royal Canadian Artillery, then at Work Point Barracks, was not behindhand in its respect for the venerable chaplain.

On the death of Bishop Lemmens in 1927, Monsignor Nicolay acted as administrator of the diocese, an office which he also filled between the departure of Archbishop Christie and the appointment of Bishop, afterwards Archbishop, Orti. In 1927 he was appointed by Archbishop Orti to Lady Smith, then a rapidly-growing community. Here he built the solid school structure still occupied by the Sisters of Charity.

HONORED ON RETIREMENT

In 1913 conscious of his advancing years and failing strength, he obtained leave of absence to revisit his native country. Once there he was prevailed upon by relatives and friends to spend his last days among the scenes of his youth. He kept, however, in continual touch with Victoria, and showed the keenest interest in local developments. On the golden jubilee of his ordination in 1926, a substantial cheque was the visible expression of the deep respect

For myself, I believe that this life is nothing more than a test of a lesson, given to us to see whom we will follow after, Jesus or Satan, and the more we learn in this life that the only way to get on is to follow after Jesus as well as we are able, the better it will be for us in the next.

A BIBLE STUDENT.

in which his memory continued to be held by those who for so many years had benefited by his ministry.

Monsignor Nicolay was buried in the churchyard of the parish, Holy Trinity, Vanik, the home of his childhood. By far the greater part of his life, however, was spent in the service of God and humanity on Vancouver Island. His gentle personality, his striking figure, his culture and his practical Christianity have left a lasting impression on those of all nationalities and faiths contemporary with him.

## Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written on one side of paper only. The longer an article the shorter the chance of insertion.

All communications must bear the name and address of the writer, not for publication unless the writer wishes.

The publication or rejection of articles is a matter entirely in the discretion of the Editor.

## PROPHECY

To the Editor:—As time goes on and this depression does not seem to let up I am driven to wondering if this is not the time of trouble mentioned in Daniel xii, more and more, and I wonder also how many will agree with me, on reading the above chapter, that the twenty-first chapter of St. Luke, that this depression is one of the signs of Jesus's second coming. If so, we are to look up and lift up our heads for the kingdom of God is drawing nigh. Chapter xxi St. Luke xxi to 34th verses.

I think that Chapter vii of Micah, 2nd to 4th verses gives a good explanation as to why we should have this trouble, Micah vii 9 and 20 we are promised that it will be brought to an end in God's due time. Another reason for the trouble is given in Revelations xii 12th verse, and I am sure, that knowing these things makes it easier to bear—and although unscathed, and others might even die as a result of these times, still we are given reason to hope, for we have a positive promise of the resurrection in chapter vi of First Corinthians.

For myself, I believe that this life is nothing more than a test of a lesson, given to us to see whom we will follow after, Jesus or Satan, and the more we learn in this life that the only way to get on is to follow after Jesus as well as we are able, the better it will be for us in the next.

A BIBLE STUDENT.

## B.C. MILLS AND BRITAIN

To the Editor:—British Columbia House would be a valuable asset to a business adjunct instead of a political haven of refuge, as has been the case for some years, but it is at present a sinkhole for public money.

A "message" contributed by the present incumbent thereof, to a special "Empire Conference number" of a Vancouver lumber journal, to realize that he is rounding up his state hold. He is astray in his "facts," and dogmatically expounds his egotistical opinions upon a subject of which he is intensely ignorant, as any intelligent lumberman who has read the message, knows.

There is some difficulty in selecting quotations from this ebullition of the Agent-General, but it is mostly all alike, but I quote a few lines to show the nature of the epistle and the "information" can be checked from the records of the forest branch.

We realize the point has been raised as to British Columbia's ability to supply the British market. In my view, this is a groundless apprehension. The Canadian mills working at full capacity are able to turn out 2,500,000 standards a year, which would very comfortably cover Britain's annual absorption of 2,000,000 standards (approximately 5,000,000 feet board measure) which I have reason to doubt, there is no possibility of nearly three-quarters of that quantity of lumber being exported to Britain or elsewhere within many years (if ever) for reasons too numerous to mention here. British Columbia mills alone have never in any one year sawn more than half that quantity of lumber.

W. ROBERTSON.  
Victoria, B.C., August 29, 1932.

## IMPRACTICAL PROPOSAL

To the Editor:—Premier Brownlee's suggestion is commendable; however, it deals with a matter already somewhat fully considered by university conferences.

Unnecessary duplication of university or other services is obviously undesirable. Such duplication, however, simply does not exist so far as least as the arts faculty in the U.B.C. is concerned.

Retrenchment this year at the U.B.C.—as a result of the drastic cut in the government grant—has already gone beyond the point of sound economy. On account of such unprecedented cuts in the last two years, practically equal to the combined cuts in the government grants of the three prairie universities, British Columbia is driving out of this province annually more dollars than it saved by curtailing grants to its provincial university. The grant to the university now stands at about one-sixtieth of the amount British Columbia annually spends on booze.

The exodus of dismissed professors and lecturers, whose spending power is nullified, as well as of students who will leave this province to attend other universities offers a course that the U.B.C. has been obliged to curtail or eliminate, accounts for this deplorable situation. The prairie universities on a per capita student basis now receive about twice the government grant that is provided for the U.B.C. Any further cuts in the U.B.C. grant would be sanctioned only by economic tyros and political pigs who should be held to strict accountability.

Educational institutions should bear their just share in a programme of

necessary economy—but a 57 per cent cut in two years is altogether disproportionate and unparalleled in the history of modern civilized communities.

The prairie universities have certain facilities which, to avoid duplication, the U.B.C. did not establish. For instance, Alberta and Manitoba Universities have good medical faculties, while Saskatchewan University has a three-year pre-medical course. All the prairie universities also have good law schools. The U.B.C. has neither medical nor law school nor a school of pharmacy.

Duplication, where it exists, would probably be found among the prairie universities. The U.B.C. already has been cut to the bone. Any further financial cuts would be both economically and educationally wasteful.

## LABOR'S VIEWS ON TARIFF BOARD

Federal Government Urged to Name Labor Member When Body Organized

Hamilton, Ont., Sept. 12.—Inclusion of a labor representative on the Tariff Board and establishment of a national economic council, with labor representation, were advocated by the executive of the Trades and Labor Congress of Canada in its report, presented at the forty-eighth annual conference here to-day. Dealing with this, the executive, commenting on the results of the Imperial Conference, declared: "While the Tariff Board is being organized, it is apparent from the official reports already published that a measure of planned economy amongst the countries of the empire is to be undertaken and that the Tariff Board is to play an important part in this matter. For these reasons, the executive urged that previous declarations of the Congress on such points be reaffirmed and the federal government urged to give effect to the same."

The report contained the correspondence between Tom Moore, president of the Congress, and Mr. Hon. R. B. Bennett, in connection with Mr. Bennett's request that the Trades and Labor Congress of Canada be accorded the same recognition at the conference of Canada in its report, presented at the Union Congress by the British government. (The latter body was invited by Premier MacDonald to send two representatives in an advisory capacity, of whom the principal was John Bromley, the president.)

Mr. Bennett's reply was that since the federal Labor Department was available for consultation purposes, he did not propose calling the Tariff Board from the ranks either of labor, the manufacturers or the farmers' associations. The Prime Minister, however, added that "it is apparent that further assistance is desired as I will attempt to get of you kind offer and communicate with you accordingly."

Mr. Moore's reply interpreted the Premier's letter as meaning that "the Canadian government does not desire co-operation of such a character." Nevertheless, the policy of the Congress would always be "to accord its fullest support on all matters which appear to be for the advancement of the people of Canada as a whole."

## PLEA MADE FOR MERCHANT MARINE

Hamilton, Sept. 12.—(Canadian Press)—The Calgary Trades and Labor Council is opposing the proposed government merchant marine as suggested in the report of the railway and shipping committee of the Commons last session.

In a resolution submitted to the Trades and Labor Congress here to-day it asks the congress to protest "most vigorously against parliament discarding the principle of government ownership and operation of ships and we are of the opinion that if the present ships are uneconomic and cannot be satisfactorily operated they should be replaced by a more efficient merchant type vessels and that the necessary moneys be made available to this end."

The National Association of Marine Engineers urges the government to go ahead with the bill it introduced last year and then withdraw which would have amended the coastal laws in order to protect Canadian shipping on the Great Lakes.

The competition of motor trucks with the railways is dealt with in a number of resolutions before the Trades and Labor Congress convention. They come from Montreal, Toronto and London and urge government action—provincial and Dominion—to regulate further motor truck operation.

## Her husband left her Two Children and \$4<sup>00</sup> a Week!

WHEN John T—— was alive and healthy, both he and his wife were proud of the fact that they owned \$5,000 of Life Insurance.

Five thousand dollars looked like a lot of money—about as much as John could earn in two years' time.

Then suddenly Mrs. T—— was left alone in the world—alone, except for their two children and the Life Insurance.

Earnings stopped but bills had to be paid. In a few months' time, the insurance money had shrunk to \$4,000. At this time, Mrs. T—— did some figuring. Safely invested, \$4,000 would yield \$200 a year—less than \$4.00 a week. Not enough to pay the rent, let alone buy food and clothes for three!

And so another widow sought menial work through the classified ads. of the newspapers—and two more children were deprived of a mother's care.

Not a very pleasant story—but a true one. That's why we suggest that you measure your Life Insurance by the income it will produce—the income that you will need for your own old age—the income that will help take your place, if necessary.

## BRITAIN GIVES WINE ADVICE

Empire Growers Urged to Put  
Some Aristocratic Products  
on Market

Great Field Reported Open  
For Increased Sale of Brandy  
and Liqueur Brandies

London, Sept. 12.—A quarter of the wine now drunk in the United Kingdom is Empire wine, says the Imperial Economic Committee in its "Report on Wine," printed by H. M. Stationery Office which is issued to-day. Largely as a result of the fiscal preferences granted to Empire wines in 1924 and 1927, the Empire's share of the wine trade has risen from 7 per cent. in 1921 to over 25 per cent. in 1931.

The report gives the world's total annual production of wine at around 4,000,000,000 gallons, half of which two countries, France and Italy, provide. The British Empire only provides 1.31 per cent. of the total.

### UNITED KINGDOM MARKET

In a careful study of the United Kingdom market, it is estimated that the average amount of wine drunk annually per head of the population is some two and one-half pints. Consumption has been practically constant since 1880. There has been a certain change of taste towards sweet and away from dry wines, and it is in providing good sweet wines that Empire growers have a particularly favorable field. The steady consumption of wine, although the duties were doubled in 1920, is in part due to the increased taxation on beer and spirits.

### RECOMMENDATIONS TO EMPIRE GROWERS

The report offers Empire growers various counsels. In particular it recommends both Australian and South African growers to seek to put on the British market a few aristocratic wines, whose undisputed excellence will confer prestige upon the land from which they come. No less an authority than H. Warner Allen, a quoted in the report in discrediting praise of South African sparkling wine, dry Dominion, and of distinctive Australian wines. These wines have qualities of their own, but they have to make their way in a market whose taste is already trained by the wines of Europe. Just as the wines of France, Germany and Spain are all quite different and are not compared against each other, so should the Empire wines win their own niche.

Great efforts are now being made to improve quality and it is recognized that much harm was done by the premature export of inferior wines some years ago. In hotels and restaurants, in particular, the goodwill of the management is of little effect where consumers choose the foreign label "either through fear of venturing on the unknown or as evidence of their supposed knowledge."

### BLENDED WINES

Empire growers have to face the competition of blended—European wines, which are blended not for improvement but simply to obtain a wine on which the duty works out at nearly the same as the duty paid by Empire wines.

The practice of adding spirit to Empire wines is known as "fortifying" them by artificially adding alcohol to obtain alcoholic strength is one which injures the name of Empire wines. The report says:

### EMPIRE SHERRY

The special attention of producers is drawn to the good quality sherry-type wine. Sherry has gained considerably in popularity in recent years and, being a blended wine, offers no natural obstacles to Empire growers. Natural sweet wines, like sauterne, are also becoming more popular. The natural white wines of Australia and South Africa are deeper in color than those of colder climates; an attempt should be made to produce the natural wine of a very rich golden color which is in itself beautiful and it is mainly a matter of education to get the consumer to appreciate it.

### NEED FOR LARGER EXPORTS

The two great wine producing countries in the empire are Australia and South Africa, although Canada, Cyprus, Malta and Palestine all produce wine, and there is British wine—elderberry, cowslip, ginger, etc. Australia produces less than a third of her own production of around 18,000,000 gallons, while South Africa, whose total production is about 19,000,000 gallons only exports between four and five per cent. of it. Australia exports more than twice as much as South Africa, and both countries send over ninety per cent of their exports to the United Kingdom. But total sales here, not kept pace with production. Large export markets, alike for wine and brandy, are the chief need of both countries. Markets in Empire countries, other than the United Kingdom deserve attention, though few of these countries at present, give tariff preferences to Empire wines.

### BRANDY CONSUMPTION

The increased sale of brandy presents itself as a way in which Empire producers can extend their markets. South Africa is a particularly large consumer, and annual consumption per head is twelve times what it is in the United Kingdom. Australia consumes five times, Canada three times as much per head as the United Kingdom, where consumption has been decreasing for many years and is now only half a million proof gallons. Empire brandies have to compete in a narrowing market with established foreign brandies. France, in fact, enjoys a monopoly and the public relies on the names of a very few well-known shippers of French brandies.

Empire brandy thus finds it difficult to obtain the recognition its quality deserves, and is only one-half per cent of all the brandy consumed.

The laws of Australia and South Africa are strictly administered, and guarantee that brandy is properly manufactured from wine and properly aged. South African brandy has been used by the London County-hospitals as their own brandy for the last five years and is in use in more than 400 hospitals in the United Kingdom.

If producers can produce in time a few liquor brandies of the highest type, it will greatly help to establish Empire brandies.

### NEW UNIVERSITY CHAIRMAN

Toronto, Sept. 12 (Canadian Press)—Rev. Dr. R. Bruce Macdonald is the new chairman of the board of governors of the University of Toronto named by the Ontario government. He succeeds Rev. H. Canon Cody, who became president of the University.

## PRAIRIES SAW QUEER CEREMONY

Doukhobor Doings of Twenty  
Years Ago Recalled When  
Women Were Shorn

Veregin Had 1,500 March  
Twenty Miles Barefooted  
and Then Be Ducked

Enterprise, Sask., Sept. 12.—Recent prominence of Peter Veregin through his jail sentence has led The Yorkton Enterprise to recall some of the fancy doings of the Doukhobor sect under the original Peter Veregin by reprinting a story from the Tanora Advertiser of twenty years ago.

The English speaking people residing in the Veregin district probably have the privilege of witnessing more

real comedy drama than could be furnished on any half dozen of the best stages in the Canadian west. The mysterious doings of the faithful followers of Peter Veregin, which began with a nude parade some years ago, have time and time again excited the curiosity and interest of all parts of Canada.

"Last Sunday at Veregin village a new edict went into effect—which was to be a preliminary function preparatory to the departure of a number of Doukhobors to the new colony at Brilliant, B.C. About 500 women and 1,000 men were ordered on a barefoot march which covered twenty miles all told. The big company of men and women carried their hats, shoes and stockings in their hands, by order of Peter, while they marched along. At the White Sand River the mysterious ceremony took place. The women were ordered to march ahead over a bridge and Peter made the men march into the water up to their heads. At this point the current was swift and deep. Peter waded in till the water reached his chin, then carefully made his way back to the shore and ordered each man to go out into the river as far as he had done. This proved to

be a severe task for a great number. Peter is a very big and tall man. Some of the shorter members of the company were unable to accomplish the task and would have drowned but for the assistance of the bigger men. Then standing on the shore of the great company—strapped in that weird chanting and singing so peculiar to their sect. Peter would sing awhile then his subjects would chime in. All the shoes and stockings of the men and women were in a heap which measured several feet high. In the form of a cone. This appeared to be the altar for the occasion over which Peter pondered, sniffed, sang and intermittently addressed the great company circled around. Sixty of the 500 women were ordered to the front to have their hair shorn from their heads. These were women about to leave for British Columbia. The hair was removed, leaving a covering only two inches in length, and each woman's "growing glory" tied up with string in separate parcels. The hair, it was rumored around Veregin, was sold at \$4 a ton to a firm in the eastern States.

"During the peculiar ceremony about 300 non-communistic Doukhobors (those who have abandoned Peter and his vagaries) gathered on the opposite bank of the river and, like the peanut in the gallery, used the opportunity to jeer, laugh at and denounce the splendid stage work of the man of mystery. For a man of mystery he is to even his own people. They do not understand what the ladies' march was to represent. The object of the ordeal through which the great company passed is unknown to them. When several of the community Douks were asked by English speaking people what it all meant they said they didn't understand what it was for.

"As a result of the ordeal a number of the less hardy specimens of the race, for instance, clerks and those inexperienced in roughing it, were unable to attend to work the next day from the effects of the exhaustion."

garden soil as they require special conditions. Dr. Ricker advises. In woodlands, adapted to the growth of ladies' slippers and other orchids, seeds can be scattered with the prospect of one in a thousand surviving.

Fringed gentian is a biennial, the seed do not ripen until late October, and should be sown at once on low damp ground with a grassy cover along a stream or pond. The first year a small rosette about half an inch in diameter is formed. The second year this sends up a stalk and flowers in

September or October. To establish a permanent colony, it is necessary to sow seed two successive years. Among the easiest wild flowers to bring from seed are the columbines, bluebells, wild-indigo, butterfly weed, shootingstar, wild phlox, gayfeathers, loosestrifes, cardinal flower, pentstemons, false-dragonhead, saxifrages, violets and the composites—asters, daisies, coneflowers. The most difficult are orchidaceous plants, largely because so little is yet known about their germinating habits.

## PHYSICIAN AND BEAUTY

No doubt many formerly well persons in Austria develop "heart trouble" when blonde Dr. Maria Ehrenstein (above) appears on the case. She is equally famed as a beauty and as a physician.

WOMEN WILL  
GO DEMOCRATDetermined to Purge States  
of "Appalling Conditions,"  
Says Mrs. Graham of IdahoConvinced Franklin D. Roose-  
velt Has Excellent Chance  
For U.S. Presidency

"I believe the great majority of the women of the United States will vote the Democratic ticket on November 8 next because there is a widespread determination to wipe out the appalling conditions that exist to-day," said Mrs. Teresa Graham, National Democratic committeewoman for the state of Idaho, who is visiting Victoria from Coeur d'Alene.

"I think Franklin D. Roosevelt has an excellent chance of being elected as the next President of the United States," she added.

Backsteering and lawlessness, Mrs. Graham asserted, had flourished since the prohibition act had been in force. The situation was now intolerable.

"I know women who have never tasted a drop of liquor in their lives, who have banned it always from their homes, and I have known ministers of the gospel who have preached vehemently against the traffic, but they are going to vote for the repeal of the eighteenth amendment," she declared.

Repeal is the chief plank in the Democratic platform.

## RIPE FOR CHANGE

In forty-four years there have been but two Democratic terms of office, but the United States is now ripe for a change, Mrs. Graham thinks. As the National Democratic committeewoman for Idaho, she was at the Chicago convention in June. Roosevelt, she said, went into the convention with 628 votes, and when Hamilton Lewis of Illinois backed his total to 691, he virtually controlled the convention. All Roosevelt needed to be elected was 770 votes, so when William G. McAdoo, perhaps the most outstanding man of the convention, diverted the California vote, and John Garner the Texas vote in his favor, it right there ended the possibility of the introduction of a dark horse.

## INTENSIVE CAMPAIGN

Mrs. Graham, after spending a short holiday at the Empress Hotel here, is returning direct to Idaho to campaign for Governor Roosevelt. An intensive campaign, she said, will be inaugurated throughout the United States by October 1, and will continue until the election date in November.

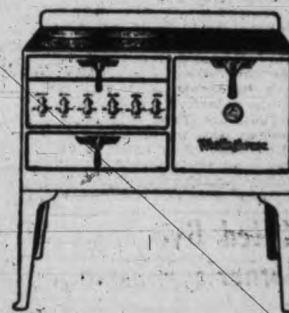

Mrs. Graham is a native of Pinal, Ont., the home town of Duncan Campbell, well-known druggist of Victoria, with whom she is acquainted. She became an American citizen on her marriage to Capt. Graham of Coeur d'Alene, and for many years has been politically active in the state of Idaho.

\$500 TO REUNITE  
AFFLICTED FAMILY

When some dynamite exploded on the Bridge Lake Road, Cariboo, last year, Arthur Barnes, ten years old, lost his eyesight, one arm and was otherwise badly mutilated.

The extent of the family's love for the boy was shown that to be with him while he lingered on towards death in a Kamloops hospital, they had to sell their farm, its equipment and their stock.

Now to reunite the family, re-establish them on their farm and restore happiness to all, Premier Tolmie and the members of his cabinet have voted a special treasury grant of \$500 cash to the family.

Over 60 per cent of the creamery butter produced in Canada comes from two provinces, Ontario and Quebec.

Tractors on farms in Alberta increased from 9,215 in 1921 to 23,967 in 1931, or one in 4.08 farms.

British Columbia's first apple tree was planted near Victoria in 1851 by Sir James Douglas.

Over 234,000 acres were sown to wheat in the world last year.

"GIVE A JOB"  
PLAN PROPOSEDFriendly Help Calls Public  
Meeting to Discuss Scheme  
to Aid Jobless

In an endeavor to arouse public interests in the cause of the unemployed man, the Friendly Help Association is calling a meeting of representatives of service clubs and interested citizens at the City Council Chamber on Thursday evening, September 22, at 8 o'clock.

It is hoped that at this meeting plans may be formulated for the organization of a "Give a Job" campaign under which the city will be divided into blocks, so that each unemployed man may be given odd jobs, of an hour or two or more, in each block. It is pointed out that by this method the jobless man may be saved the weary tramping from one part of the city to another, which is often occasioned under the present system, working much hardship on a man weakened by lack of food and with worn-out shoes.

Rockefeller And  
His Bride-elect

The wedding of Miss Blanchette Hooker (above), daughter of Mr. and Mrs. E. H. Hooker of Greenwich, Conn., and John D. Rockefeller III (below), son of Mr. and Mrs. John D. Rockefeller Jr., is to take place in the fall. Their engagement has just been announced. Young Rockefeller, bearer of a name famed in United States finance, is associated with his father in business and philanthropic organizations.

WOMAN DIES  
IN AUTO CRASHFather and Brother Injured in  
Accident Near Barnet  
Mills, B.C.

North Burnaby, B.C., Sept. 12.—One person was killed and two injured early Sunday when an auto crashed into a bridge over the ravine on the Hastings-Barnet road near Nichol's Chemical Works.

Miss Dolly Hodson, forty, of 1417 West Eighth Avenue, Vancouver, was killed instantly, and her father, William Hodson, and her brother, John Hodson, were injured about the head and taken to the Vancouver General Hospital.

According to Burnaby police reports, the family had been driven to Port Moody Saturday evening by Mr. Hodson's grandson, Louis Harold Maracher, of 1417 West Eighth Avenue, who was accompanied by his fiancée, Miss Alice Pamplin, of 4513 Beatrice Street. They were on the way home shortly after 3 a.m. Sunday, and near Nichol's Chemical Works, just east of Barnet Mills, the auto got into a gravel patch on the south side of the highway.

The car swerved across the road and struck a danger sign and the rear of the auto hit the top rail of the bridge over a ravine. A door crashed in when the car hit the timber, Miss Hodson being struck in the face. As the auto turned completely around Mr. Hodson and his son, who were sitting in the rear seat with Miss Hodson, also struck the timber. She was killed instantly.

Dr. C. R. Symmes of Port Moody was called and rendered first aid to Mr. Hodson and her brother, who were later taken to the hospital. Their injuries were described as not serious.

Louis Maracher, who was arrested by Burnaby police charged with manslaughter, was later liberated on \$5,000 bail.

An inquest was scheduled at Paterson's Funeral Home, New Westminster, on a date to be arranged.

FORMER ACTRESS  
IS RECOVERING

Eva Tanguay, Canadian-born actress, was reported to-day from Hollywood to be recovering from the complication of illnesses from which she has been suffering from the last few months, following a blood infusion yesterday. A week ago her condition was described as critical. Eva Tanguay, who is now fifty-four years of age, recently lost her \$2,000,000 fortune in the stock market. It is reported. She is shown, above, as she is to-day, and below, in the heyday of her theatrical fame.

SISTER  
MARY'S  
KITCHEN

By SISTER MARY

Perhaps of all the pies made, pumpkin is the most popular. It's almost the only variety commonly included among party refreshments and it seems such a personal kind of pie! Everybody has his own very definite and decided ideas of just what a pumpkin pie should be from color to taste. The stewing or baking of the pumpkin is the first step in the preparation of the pie and it is a most important one. Baking is the simplest method, for the vegetable is merely cut in halves, the seeds are removed and it is placed cut side down in a dripping pan and baked until tender. Then scrape from the shell and force through a ricer and colander. To stew a pumpkin, wash and cut in narrow strips. Remove seeds and pare off yellow shell. Cut in cubes and put into a heavy aluminum or iron kettle. Add just enough water to prevent burning before pumpkin begins to cook. Cover and cook over a good fire until pumpkin is tender. Remove cover and cook over a low fire until pumpkin is dry. Stir occasionally to prevent burning. It takes from four to six hours to stew a pumpkin. Rub through a colander or ricer when dry. If you use canned pumpkin cook it over a low fire until perfectly dry.

PLAIN PUMPKIN PIE  
One cup sifted pumpkin, 1/2 cup light brown sugar, 1 tablespoon flour, 1 tablespoon baking molasses, 1/4 teaspoon salt, 1/2 teaspoon ginger, 1/2 teaspoon cinnamon, 1 egg, 2 cups rich milk. Mix and stir flour, spices and salt and add to sugar. Mix and stir into pumpkin. Add molasses and egg slightly beaten with milk. Turn into a pie dish lined with plain pastry and bake one

hour. The oven should be hot, 425 degrees F., when the pie is put in. At the end of ten minutes reduce heat to 350 degrees F. This rule will fill an eight-inch pie pan.

## FLUFFY PUMPKIN PIE

This pie is more "partified" and you may prefer it for guests.

Use three-fourths cup sifted pumpkin, 1/2 cup sugar, 2 eggs, 1 1/2 cups milk, 1/2 cup cream, 1/2 teaspoon ginger, 1/2 teaspoon cinnamon, 1/4 teaspoon salt. Beat yolks of eggs with sugar, salt and spices. Add pumpkin and mix thoroughly. Fold in milk and cream and stir until blended. Fold in whites of eggs beaten until stiff. Turn into a pie dish lined with pastry and bake as in preceding recipe.

## TO-MORROW'S MENU

Breakfast: Cantaloupe, cereal, cream, corned beef hash, cornmeal muffins, milk, coffee.  
Luncheon: Scalloped egg-plant and tomatoes, toasted muffins, apple dumplings, milk, tea.  
Dinner: Swedish meat balls, baked sweet potatoes, succotash, stuffed tomato salad, pumpkin pie, milk, coffee.

# **Fear of Failure Unjustifiable in Normal People Contemplating Marriage—Old Maids And Bachelors Never See Behind the Scenes Of Life's Greatest Adventure—Don't Be Afraid to Try It, Dorothy Advises Inquirer**

A GIRL writes me that she and a young man are very much in love with each other, but that they hesitate to marry for fear their marriage may be a failure. She says they have seen so much burning and sizzling passion cool down into a lukewarm liking and sometimes actually congeal into hate; they have seen so many billings and cooing turtledoves turned by marriage into fighting cats and dogs; they have seen so many men and women who thought before marriage that they couldn't live without each other find out after marriage that they couldn't endure to live with each other; they have seen marriage wreck so much romance, sour so many dispositions, bring out so much meanness in people, that they are simply afraid to risk it, and they get cold feet when they even think about treading that dangerous path to the altar.

It is not surprising that young people lose their nerve when they contemplate entering the holy estate, for it is not to be denied that the average couple are an awful warning against matrimony. There is nothing in the spectacle of nagging wives and grouchy husbands; of husbands and wives who quarrel and argue on every subject under the sun; of uncongenial people who bore each other to death tied together in an enforced companionship, that would tempt any sane person to follow in their footsteps.

Instead, any boy and girl looking at them would feel that they were the victims of some colossal blunder that he and she would be wise to avoid making. The boy thinks: "These women were once as sweet and alluring as Annabelle, but marriage has turned them into shrews and whiners and complainers, and their husbands have had to spend their lives toiling to pay for that. Gosh, what a price to pay for a little romance!"

The girl thinks: "These men once looked like Fairy Princes to their wives and the legends behind the price of a hat. These women's husbands once swore that they would die for them and now they have forsaken them for flappers. Why should a woman risk her all in marriage when time stacks the cards against her and there are ninety-nine chances out of a hundred of her losing out when her youth and good looks are gone?"

But these young people are wrong. Undoubtedly marriage is a chancy game that makes faro and roulette look almost like conservative investments, but often more than one thinks a lucky couple do win out, and the rewards of a happy marriage are so great that they justify the risks.

In spite of all the divorces, in spite of all the disgruntled people that we know, there are husbands and wives who stay lovers to the end of the chapter and find in each other's society a perfect companionship that is the most soul-satisfying thing on earth. In spite of all of the domestic strife that we constantly witness there are happy and peaceful homes to which men, spent and torn by the buffeting of the outside world, flee as to a haven of refuge and from which they go forth healed and strengthened and with courage to fight the daily battle over again.

The old adage, "nothing venture nothing have," holds good in marriage as it does elsewhere in life. The victory and the spoils go to the bold adventurers who have the courage to gamble with Fate. Those who are so cowardly and so afraid of losing that they risk nothing, get nothing.

The man and woman who marry may miss getting their ideal mates. They may even marry sorrow and trouble instead of happiness and joy and may be bankrupt in the end, but the old bachelor and the old maid are emotional paupers from the start. They are never millionaires even for a day as the married are, and while they miss the dangers of matrimony they also miss the thrills and exhilarations. And they miss its education, for whether a marriage is a success or a failure it makes men and women wiser, broader, with a deeper insight in life.

For young people to refrain from marrying because other people have failed at it is as foolish as it would be for a man to say he wouldn't go into banking or the drygoods business because he knew somebody who failed as a banker or a merchant or for a girl to say she would never bake a loaf of bread because her mother's bread was bad and heavy. There is no human line of endeavor into which anybody can go assured of success. Everything we do has a certain amount of risk attached to it.

Every marriage is an individual proposition and whether it fails or succeeds depends entirely upon the amount of goodwill intelligence and patience and effort that is put into it.

Love would never die if husbands and wives took half the pains and trouble to keep it alive that they bestow upon the rubber plant in the dining-room. The dove of peace would take up his perpetual abode in every home if only it was coaxed into staying and made a household pet instead of being shooed out of the window. The art and wiles by which a woman catches a man will hold him to his golden wedding day. The jolting that a woman feels before marriage still gets in its great and perfect work until she is ninety.

A little self-control, a little diplomacy, a little good sportsmanship, a little fair play will make any marriage a success and take marriage out of the gambling class and put it in the list of gilt-edged investments. So don't be afraid to try it.

### **Ways of Olden Egypt**

#### **MARKET DAY**

From a small piece of baked clay, now in the British Museum, we learn of an event which happened thousands of years ago in Egypt.

The woman examines a basket of fish. The strange writing on the clay tells about a sale which was made at the market-place of an Egyptian town. A man by the name of Ammouso sold a bull, and received in return one nat, five measures of honey, eleven measures of oil, and seven other articles. That kind of exchange was common in ancient Egypt. In every town or city there was a market-place where people gathered to trade. Crowds came to the spot, bringing goods of many kinds. Some persons brought beads or bracelets, others were loaded down with fish, meat or grain. Still others had sandals or clothing to trade.

Let us follow an Egyptian on market day. Living a few miles from the town, she had trudged in with a heavy load—a hen, a goose, butter, eggs, and a good-sized piece of cloth. After working her way through the crowd, she comes to the side of a fish merchant. She is tired and sets down her load for a moment. "Take a look at my fish," says the fish merchant. "The woman turns and examines a basket of fish. She decides that it would be well to take home some of the fish to cook for her husband and children. "I will give you a measure of butter for two of these fish," she says. "No, I do not want butter," the man replies. "How would you like this fine piece of linen?" she asks. "I will give you three fish for it!" he quickly responds. "No, I must have at least four!" "Very well, here they are!" As she walks away, the woman wonders whether she has lost by the trade, but she is glad that she has obtained the fish. Later she visits a sandal man, a perfume man, and a man who sells ornaments. For her eggs and part of her butter, she obtains two pairs of leather sandals, one pair for herself, the other for a daughter. In trade for her hen, she gets a small jar of perfume. The rest of her butter she exchanges for a string of glass beads. The ornament man has his eyes on the goose, and shows her a bracelet "made of amber beads from a distant land." She remembers that her eldest daughter is almost ready to be married. She hesitates, and then she buys. The goose belongs to the man, the amber bracelet belong to her. With a happy heart, she walks home carrying a lighter load.

**Uncle Ray**

## **FREEDOM SONS IN LIVELY DEBATE**

Kamsack, Sask., Sept. 12.—Rumors that deportation papers had been served on their leader, Peter P. Veregin, titular head of the Doukhobors in Canada, have caused unusual interest in this community and feeling is running higher than at any time since the chief of the Christian Community of Universal Brotherhood was sentenced to serve eighteen months in jail for perjury. But no disorders occurred here yesterday as hundreds of Doukhobors discussed the situation. Especially are the Sons of Freedom, insurgent group of the Doukhobors, incensed at the fate which is said to await Veregin, but despite great excitement in their ranks nothing unusual was noted yesterday as R.C.M.P. officers kept close check on the various meetings.

Eggs, 3 doz. extras, white—1, Mrs. R. Maxwell; 2, Miss C. Shaw.

Collection of jam, three kinds—1, Mrs. R. Maxwell; 2, Miss C. Shaw.

Jellies, three kinds, three tumbler—1, Mrs. T. M. Jackson; 2, Miss Ackerman.

Mustard pickles, one quart—1, Mrs. R. H. McLennan; 2, Mrs. Leon King.

Vinegar pickles, one quart—1, Mrs. J. Cairns; 2, Mrs. Leon King.

Three bottles of pickles, three kinds—1, Mrs. J. Cairns; 2, Mrs. Leon King.

Canned salmon, one quart—1, Mrs. T. M. Jackson; 2, Mrs. Leon King.

## TWO MOVE UP IN EDUCATION

Principal MacLaurin of Normal School Succeeds Gillis As Deputy Superintendent

Denton Is Named New Head of Provincial Normal School Here

Following the presentation Saturday afternoon of a watch to J. D. Gillis upon his retirement after long service as deputy superintendent of education for British Columbia, D. L. MacLaurin, principal of the Provincial Normal School at Victoria, was named by the Department of Education to succeed Mr. Gillis.

At the same time, V. L. Denton, assistant principal of the Normal School, was named to succeed Mr. MacLaurin as principal.

It was announced that after a survey of the situation during the last few days, Hon. Joshua Hinchcliffe, Minister of Education, had decided to reverse the decision he made some time ago to the effect that the office of Mr. Gillis would not be filled for a while, presumably in the interests of government economy and reduction in staff.

The situation now is that combining the offices of deputy superintendent with that of superintendent of education, Dr. J. J. Willis, Mr. Hinchcliffe explained. At the same time, by appointing Mr. MacLaurin and promoting Mr. Denton, the office could be filled without adding to the staff, as no new appointment will be made to the Normal School here.

Mr. Hinchcliffe also stated that he had no "ambitions in that direction," referring to the reported plans recently for Mr. Hinchcliffe to retire as minister and take the permanent appointment as head of the Department of Education upon the formation of union government. It was pointed out that any such appointment could not now properly be made since the union government announcement last week of Premier Tolmie.

Mr. MacLaurin and Mr. Denton are both highly rated and both very popular in western educational circles. Mr. MacLaurin taught in the public and high schools of the province until he was appointed school inspector. In 1913 he became high school inspector and was promoted to the principalship of the Victoria Normal School in 1918. He has completed his Ph.D. except for his thesis.

Mr. Denton also rose up through the teaching profession to high schools, became an inspector and then assistant principal of the Normal School. He has gained distinction in the field of historical research and writing.

**BURSARY AWARDED WELLINGTON GIRL**

Special to The Times

Nanaimo, Sept. 12.—Malaspina Chapter, I.O.G.E., has awarded a \$100 bursary to a daughter of Mr. South Wellington, to enable her to continue her studies at Victoria Normal School.

The Misses G. Hindmarch, L. Piper, D. Devlin and F. Saunders have been appointed to the educational committee. A tea and art display will be held in the Forester Hall on September 21, under the convener'ship of Miss L. Campbell.

Miss Gladys Hindmarch, regent, will represent the chapter at the semi-annual convention to be held at Trail this month.

**GAS EXPLOSION INJURES TWO**

Medicine Hat Residents Suffer Burns When House Wrecked

Medicine Hat, Sept. 12.—Charles Parr and Samuel Goldie were seriously injured in a gas explosion here late yesterday.

Returning from a walk, Parr and Goldie entered Parr's home, where, during their absence, the house had become overheated. One of the men struck a match to light his pipe as he entered and the explosion resulted.

The house, a two-story frame structure, was practically demolished. The roof was blown off and the walls collapsed outward. The explosion was heard in practically all parts of the city.

Both men suffered severe burns on their faces and hands. Dr. F. W. Gershaw, M.P., after an examination at the hospital, said he expected both men would recover, but added the burns were of a serious nature.

Goldie and Parr are well known in the Medicine Hat district and prominent in provincial sports circles, especially soccer.

Medicine Hat homes and business places are served by a natural gas system.

**SCHOOL BLUE LAWS WILL STOP DANCES**

Boys and Girls Forbidden to Talk to Each Other in Corridors of Kelvin High, Winnipeg

Canadian Press

Winnipeg, Sept. 12.—"We're being treated like babies," is the cry among 1,400 students at the Kelvin High School here. "Blue law" innovations introduced with the opening of the school term have hurt the dignity of the pupils.

"Think of it," one of the students said today. "Boys and girls, some of them seventeen or eighteen, are not allowed to talk to one another in the halls. We must come into school through separate entrances and go out the same way, even though it may be more convenient for us to use one entrance rather than another."

Parking of students' cars in the block around the school is prohibited. In the school is a canteen operated by the blind. Sale of chewing gum and pop to the students is now forbidden, although the canteen can still sell hot dogs, tea and chocolate bars.

**MARCH IN LINE**

What the students object to, particularly, is having to trail in single file from one class room to another, regardless of their public school days. At 4 o'clock the boys and girls are required to march out of their classes in lines, which must be kept intact until out of the building. Finally, word has gone out that no dances will be permitted at Kelvin this fall or winter.

Over the river five blocks away is Gordon Bell school, recently become a senior high school. Kelvin sees it as a logical rival in sport, and its principal is reported to have said: "I don't care what you do as long as you lick Kelvin."

## You can cook 3 vegetables AT ONCE

in the same saucepan by using CANAPAR

Do each vegetable up in its own bag of Canapar Cookery Parchment. There won't be any odor, not even from cauliflower. All the food value and flavor will be retained. And you use only one burner turned low for cooking. The flavors will not mix!

Do the same with boiled or steamed fish. You'll be delighted with the results. No fatty odor in the kitchen. No saucepan or kettle to clean up. When roasting meat, line your pan with Canapar. Fats and juices won't burn. No more scraping or scouring of the pan afterwards.

You can use Canapar repeatedly by simply rinsing it off and hanging up to dry. It doesn't absorb odors. Makes a perfect dish cloth. Silky, strong, and doesn't spread lint. Made by the makers of the famous PARASANI Heavy Waxed Paper in the green box.

## CONSTABLE FIRES BUT THUG ESCAPES

Vancouver, Sept. 12.—Constables J. Dyer and W. Bridgman, in a police automobile, disturbed a man trying to break into the Safeway Store in the 2400 block of East Hastings Street, at 1 o'clock this morning. The man fled, with Constable Dyer running after him. The officer fired two shots, but the man escaped.

At 10 Saturday evening, R. Wines, Kitchener Street, saw a man entering the Wines car, parked in front of his home. He shouted and the man fled to a nearby automobile, which contained three others. As the car drove away Mr. Wines jumped on the running-board and clung there for some distance. He finally fell off on Commercial Street, near Kitchener Street, and injured his hip.

From the Granville Island Cafe, Granville Island, \$4 cash and \$8 worth of cigarettes were stolen.

Cigarettes worth \$50 were taken from the Kingston Hotel beer parlor on Richards Street.

Clothing, silverware and jewelry were taken from the homes of J. P. Brown, East Broadway, and Wilfred Carter, West Eighth Avenue.

### FUNERAL TO-MORROW

## NEWS IN BRIEF

Gyros will meet for a bridge party at the Elks Club on Wednesday evening at 8 o'clock.

Best wishes from the Gyro Club were extended to Walter Fletcher, newest member of the local branch, at the club's luncheon in the Empress Hotel to-day.

To meet businessmen interested in wholesale supply of goods required at Pier Island, Col. H. W. Cooper, warden, this afternoon visited the offices of the Victoria Chamber of Commerce.

W. W. Rowe was acquitted this morning by Judge P. S. Lampan on a charge of committing a statutory offence. He pleaded not guilty and elected speedy trial. W. C. Moreby, K.C., was Crown counsel, and Stuart Henderson appeared for the defence.

The programme rendered by Rowles' Boys' Band at Beacon Hill Park on Sunday afternoon was well received by a large audience. Many complimentary remarks were made on the achievements of a band of such a juvenile age.

The annual meeting of the Victoria Gyro Club will be held next Monday in one of the Empress Hotel private dining-rooms. The functions will take the form of a dinner gathering at which new officers will be elected and reports will be given by retiring leaders.

Supplemental examination results were mailed to students over the weekend. The examinations were held in Victoria, Vancouver and ten other centres in August for those students who had failed in one or two subjects in the regular examinations in June.

Sam Shearer of the Vancouver Trades and Labor Council will speak at the N.U.W.A. Hall, 731 View Street, this evening at 8:30, on "Soviet Russia Yesterday and To-day." He was a visitor to the Soviet Republic last year. He will also speak under the auspices of the Saanich branch of the N.U.W.A. at their hall above Lapp's Garage, Burnside Road, Tuesday evening.

The new provincial voters' list in Saanich totaled 6,710 names on Saturday evening, including 2,575 newcomers to the district, according to W. O. Wallace, supervisor of the re-registration. The downtown office at 1205 Broad Street, will be kept open until Wednesday evening, when the registration will close. The court of revision has been set for October 17.

Fire department equipment was called out yesterday afternoon to a small sawmill blaze at McCarter's Shingle Mill. No serious damage was done, as the great 1700 block on Fairfield Road gave one engine a run at 3:55 o'clock this morning. A small grass blaze at the corner of Ryan and Asquith Streets, was attended.

An expression of thanks for the hospitality accorded them during their recent visit was included in a letter to the local Gyro Club from international officers. The communication was read at the club's luncheon in the Empress Hotel to-day.

Another, from the Queen Alexandra Sororium, thanked the club for its donation towards the cost of securing a skiff for the children at Mill Bay.

As a result of representations made the Chamber of Commerce, the lobby of the post office will be kept open to the public on week nights and 6:30 o'clock on holidays. The Chamber was given the privilege of thanks to G. H. Stevens and G. I. Warren for their successful representations to the post office department.

The Victoria Chamber of Commerce will be represented at the "McN-A-Bloch" meeting to be held at the City Hall on Thursday, September 22, under the auspices of the Friendly Help Association. Mayor Leeming this afternoon told the directors that the provincial government would probably reduce its relief grants to cities this winter. He believed the proposed plan of organizing old jobs would provide work for many men.

Details of the recent district conference of Gyro Clubs at Yakima was given to local members by their delegate, Waldo Skillings, at luncheon in the Empress Hotel to-day. Mr. Skillings was given the prize of the splendid hospitality shown to the visiting clubs and praised the excellent arrangements made for the event. In some detail he sketched the different reports and reports submitted at the gathering.

Removal of trees from boulevards, and the policy of replacement adopted by the city council, had been given the unanimous endorsement of a special committee of the Chamber of Commerce, James Parfitt this afternoon advised the directors of the Chamber. The approval had followed a tour of the city, with inspection of examples of damage being done to sidewalks and sewers. Mr. Parfitt said certain members of the special committee had been very outspoken critics of the city's removal policy prior to the tour of inspection.

The Nelson Board of Trade has written Premier Tolmie, Hon. R. B. Bruburn, Minister of Public Works, Hon. J. W. Jones, Minister of Finance, and Col. Fred Lester, expressing the view that closing of road camps in British Columbia at certain points will not only mean loss of money already spent in roadwork, but also be an inconvenience to the public as well as a menace to the safety of travelers. In this connection the portion of the transcontinental highway between Nelson and Balfour and between Wyndel and Creston are cited as examples.

A farewell smoker was given in honor of the crew of H.M.S. Delhi on Saturday evening by the local branch of the Army and Navy Veterans. H. Callow was chairman for the evening and expressed the hope that the visitors were enjoying their stay in Victoria. An excellent musical programme was provided by the following artists: Percy Fletcher, pianist; A. H. Livesey, George Wilson, Thomas Wilson, J. H. Rivers, Ronald Smith, E. Hall, H. H. Giles, W. Gibbons, R. Cosser, P. H. Hughes, A. Jones, G. Walker, C. P. O. Board, J. Mossop, J. Jackman and T. Ballom.

## LAUDS WORK OF ATHLETES

Contestants at Olympiad Accomplished Triumph in Promoting Goodwill, Gyros Told

Archie McKinnon and Art Stott Describe Highlights of Meet

As ambassadors in the cause of international goodwill, athletes assembled at the tenth Olympiad in Los Angeles did a great work in promoting spirit of friendliness among fellow contestants and even rivals from countries other than their own, Archie McKinnon, director of physical education at the Victoria Y.M.C.A. and coach of the Canadian Olympic diving team, told members of the Gyro Club at their luncheon in the Empress Hotel to-day.

His statement was one of many interesting answers given to a verbal interview on the great meet. He was questioned by Art Stott, who represented The Victoria Daily Times at the games.

Mr. McKinnon pointed to the adverse comment expressed by the press of the world following the Amsterdam games in 1928, noting that considerable friction had resulted from unpleasant incidents there. Of Los Angeles that sort of thing had been virtually unknown. The speaker sketched several incidents in which the willingness of the more expert persons to assist those less adept was evident.

In some detail he gave reasons for his belief the decathlon athlete, competing in a wide variety of events, was a greater performer than the specialist who concentrated on one or two. He referred to the more varied training needed by a decathlon entry, and spoke of the tremendously high standard required in these men who competed throughout the whole day.

Mr. McKinnon gave a splendid description of the spectacular sight when the games were opened with the parade of nations. He was tremendously impressed with the solemnity of the occasion, as were the athletes himself. Asked which he thought the finest contest of the games was, he pointed to the 400 metres dash won by Bill Carr, the 400 metres swim duel between Miss Knight and Helen Macdonald, and the American team, the 600 metres run, won by Tom Hampson of Britain, was an outstanding example of the Englishman's stamina, courage and ability to think during a race.

### ASCENDENCY OF NEGROES

The apparent ascendancy of negro athletes was explained by Mr. McKinnon on the basis of relaxed action. Mentally and physically the colored participants seemed to save every ounce of their drive until their events themselves. In the contests this counted for a great deal, he believed.

Percy Williams was not yet through. He had shown himself to be the fastest sprinter in Canada over the 100 yards, and had a good chance to continue as such.

Local prospects for the 1936 games, a speaker believed, were not bright. Weather and competitive facilities, in his opinion, were largely responsible for the record breaking performances of many of the athletes. Moreover, Mr. McKinnon pointed out, most marks were bettered by United States men and women who were performing in their own backyard, with the maximum number of entries in all events.

Mr. McKinnon was doubtful over the ability of Helene Madison to retain her predominant position in the swimming world. A big-built girl still under her teens, she was put on considerable weight when she grew a little older. This would necessarily interfere with her swimming speed.

### LOCAL PROSPECTS

Touching upon local prospects for the 1936 games, a speaker believed, the natural talent existed here. If the boys were given sufficient support and were able to secure high grade competition, they should attain Olympic calibre by that time, he thought.

He also pointed out to the gathering that Canada had made a very fair showing at the games, although it had not achieved the spectacular triumphs of 1928, when Williams won the 100 and 200-metre sprints.

He also touched upon the game of water polo as played by the big teams and discussed the organization of the meet.

## LEGIONAIRES ARE VISITORS

Band on Way to Portland Convention; Three Parties to Return Via Victoria

The Missouri State American Legion Band of thirty pieces, from St. Joseph, Mo., paid a brief visit to Victoria from Seattle yesterday afternoon and returned to the Sound city on its way to the American Legion convention, which commenced in Portland to-day. J. P. McShane, city passenger agent for the Southern Pacific at Kansas City, conducted the party.

On Thursday, three more legion parties coming from the convention will pass through Victoria en route to the Sound city. They will be the Canadian Pacific Railway. These parties, in all sixty strong, represent the All-New England Legion, the Memphis, Tenn., Legion, and the "Chicago Legion." They will travel from Portland to Seattle in two special Northern Pacific sleeping coaches.

### WILLS PROBATED

Wills probated in the Supreme Court here include:

Amalie Walbank, Shawanigan Lake, died April 27, 1932, \$5,675.  
Mary E. Burnett, Saanich, died August 14, 1932, \$4,110.  
Anne Finch Kelsey, English probate resealed, British Columbia estate \$3,460; total estate \$100,161.  
Ernest William Blake, English probate resealed, British Columbia estate \$3,000; total estate \$9,372.  
Ricardo Bianco, Victoria, died August 22, 1932, \$2,851.  
Soren Sorensen, Port Renfrew, died July 27, 1932, \$1,195.  
Henry Otto Bove, Escondido, died March 24, 1932, \$7,300.

## Birthday Greetings Are Extended To-day To—

A. H. WILLS  
SENATOR A. E. PLANTA  
R. S. S. YATES  
CHARLES J. NELSON

Senator Albert E. Planta of Nanaimo celebrated his birthday yesterday. Senator Planta was born in Australia in 1868 and came to Canada in 1878. He received the major part of his education at Nanaimo. He was mayor of Nanaimo for eight years, chairman of the school board for six years and president of the Board of Trade for two years. In June, 1917, he was summoned to the Canadian Senate.

ARCHIE WILLS.

Archie Wills, news editor of The Victoria Times, celebrated his birthday yesterday. Mr. Wills has been on The Times staff since 1907, except for the time he served overseas in the Great War. He was born in Victoria and received his education here. After returning from France with the rank of sergeant he took over the sports' desk on The Times and later became news editor.

Charles J. Nelson is celebrating his birthday to-day. Mr. Nelson came to the city thirty-one years ago. He was born at Morphet, Kent County, Ontario, and is a veteran of the Boer War. Mr. Nelson lives at 1122 Government Street.

Robert S. Stuart Yates is celebrating his birthday to-day. Mr. Yates is a barrister and is the son of J. S. Stuart Yates, who was a partner of Magistrate George Jay thirty years ago. Mr. Yates lives at 1081 Roslyn Road.

## KIDD REPORT COPIES RARE

Chamber of Commerce Unable to Obtain Copies of Recommendations

The Victoria Chamber of Commerce has not yet been able to secure from the provincial government any copies of the Kidd Committee's report upon provincial affairs. When this announcement was made this afternoon to the directors of the chamber a number of leading business men of Victoria stated that they had made individual efforts to secure copies of the report but had likewise been unsuccessful.

Many of Victorians to secure copies was in strong contrast with the plentiful supply apparently available in Vancouver, where certain business men have been supplied with duplicate copies which they were willing to donate to less fortunate Victorians.

The few copies of the Kidd Report which were in circulation in Victoria apparently arrived in the city because certain local business men have held membership in mainland trade organizations.

George E. C. Hayward expressed the opinion that the delay in local distribution was because of the absence of R. W. Mayhew from the city. He understood that each member of the committee had been provided with fifty copies of the report. Mr. Mayhew had promised him a copy, which he had not yet received.

R. H. Ker, president, said he understood that the next issue of the report would be accompanied with replies by the government to the various recommendations. He believed the additional work would make the document much more interesting than the first edition.

The lack of copies of the report came to the fore when the Vancouver Board of Trade was asking the chamber to submit an official opinion upon the Kidd Committee's recommendations.

## AGED RESIDENT DIES SUDDENLY

The death occurred suddenly yesterday evening at the family residence, 156 Joseph Street, of Mrs. Lily Felicia McLean, aged seventy-three years. Born in Gloucestershire, England, Mrs. McLean came to this city twenty-five years ago from Winnipeg, Manitoba. She was a senior member of the Pentecostal Assembly of this city.

She is survived by two daughters, Mrs. T. Brooke, and Mrs. F. O. Diamond, 156 Joseph Street, and two sons, Ernest, 156 Joseph Street, and Hugh, 156 Joseph Street. The remains are resting at the S. J. Curry & Son Funeral Home. Announcement of the funeral will be made later.

## Solarium Would Welcome Preserves

The Queen Alexandra Solarium has received a generous donation of jars suitable for preserves, and the suggestion is made that any housewife who is making jam or other preserves might be glad to fill one or more of these jars for the benefit of the little inmates at the institution. The jars may be obtained at the Solarium Office, Pemberton Building.

## B.C. TIMBER ON BRITISH MARKET

Business Must Be Developed on Economical Lines, Says Major A. I. Harris

Expert of Timber Trade Federation Here to Consult With Government

Major A. I. Harris, British expert at the economic conference at Ottawa, arrived in the city by the afternoon boat from Vancouver to-day, to look further into the lumber industry and confer with government officials and island mill men on British requirements.

He was one of the group of delegates appointed by the Timber Trade Federation of the United Kingdom as advisory experts at Ottawa. During his stay here he will be a guest at the Empress Hotel.

"We are sure there will be an expansion of Canadian lumber sales in the British market as the result of the agreements reached at the conference," said Major Harris. "Individuals and corporations have taken substantial losses in order to use B.C. lumber. But that, of course, cannot continue. The business must develop on economic lines, as we believe it will."

"We, who represented the Timber Trade Federation at Ottawa, spent much time in conferring with Canadian lumbermen and discussing the problems of marketing. Both sides were willing to give and take suggestions, and an intensive study of the market will result. We found Canadians most willing to adopt our suggestions."

### CONTACTS HELP

"The personal contact made at Ottawa and out here in the west are going to be a great help in the furtherance of new business."

Canada's keenest competitor in the lower grades of lumber in the British market is Finland, not Soviet Russia, as claimed Major Harris.

In Finland not more than 50 per cent of the mills are working, but he can double her output at any time. Finland has the benefit of freight rates less than one-third of the rates from the Pacific seaboard. She also has the advantage of a short haul, and consequent facilities for shipping small cargoes.

## Man Minding Baby, Police Summoned

But Family Goes Home Happy, Baby Carriage and All

When a local woman gave her husband instructions to "mind the baby" on Saturday night she reckoned without the inquisitive nature of passers-by, who reported, at 9:30 o'clock, to the police, that a man slightly the worse for liquor was wheeling a baby carriage up and down Johnson Street.

Police reserves were rushed to the spot, but discovered everything was in order. The man was minding the baby while his wife was playing bridge at a nearby hall. Everything was settled and the family went home happy.

## Y.M.C.A. OPENS SEASON TO-DAY

School Boys and Young Employed Members Start Indoor Classes

Indoor winter classes at the Y.M.C.A. were scheduled to start to-day with the junior school group taking the gymnasium at 4:15 o'clock under the direction of Archie McKinnon, physical director.

At 7:30 o'clock the junior employed squad will take their first workout under Bob Gordon and three-quarters of an hour later the intermediate employed will start the season under Viv Shoemaker, boys' work secretary.

Programmes for the day included light gym workouts and games as tentative organizing meetings for the season.

With the gymnasium renovated and newly painted for the year, everything was in readiness to-day for what promises to be a banner season both in the junior and senior membership. Other activities of the "Y" will be launched in the near future.

## CHURCH WORKER CALLED TO REST

Late John E. Kilty Was on Metropolitan Church Management Board

After an illness of two months' duration, John Edward Kilty, a member of the board of management of the Metropolitan United Church, passed away on Saturday at the Jubilee Hospital, aged fifty-six years.

Mr. Kilty was born in Owen Sound, Ont., and came to this city fourteen years ago from Oaage, Sask. He leaves in sorrow, besides his widow at the family residence, West Saanich Road, Royal Oak, two brothers, D. W. Kilty, London, Ontario, and Cecil Kilty of Detroit, also one sister, Mrs. Alice McEwen, Detroit.

Mr. Kilty was a member of Mount Newton Lodge, R.F. & A.M., under whose auspices the funeral will be held Wednesday afternoon, the cortege leaving the S. J. Curry and Son Funeral Home and proceeding to the Metropolitan United Church, where services will be held at 2:30 o'clock. Rev. E. S. Church will officiate, assisted by Rev. Wm. Allan. Interment will be made in the Royal Oak Burial Park.

## Give Your Child This Chance!

PROVIDE a piano and the way is open to your child to go out into the world with the glorious gift of music. It is an accomplishment that leads to friendships, to culture and happiness. But the time to begin music lessons is now when it is so easy to acquire a really good piano.

We invite you to see our selection of pianos. Famous makes at prices from as low as \$150.

## POLICE SERVED WITH NEW GUNS

Special Parade to Inspect Armaments Held at Headquarters

For inspection of armaments and issuing of new revolvers, a special parade of all ranks was called this afternoon at police headquarters.

Thirty 38 calibre Colt revolvers have been purchased for the force, replacing guns worn out in long service. This purchase was part of a move by Chief Thomas Heatley to bring the defensive equipment of the department up to proper standard. Additional steps to improve the police armaments have been taken by special vote of the police board and City Council.

The parade this afternoon was for general inspection of equipment, with particular attention to revolvers and the replacement of guns where needed. At the conclusion a presentation on behalf of the police force to Magistrate George Jay on completion of his twenty-fifth year on the City Police Court bench was planned.

## University School To Open Wednesday

The University School will open on Wednesday morning at 9 o'clock. It was announced on Saturday by Headmaster G. M. Billings, B.A. Resident students must be in attendance at the school by 8 o'clock to-morrow evening. It was announced.

The staff for the coming year will include, besides G. M. Billings, the headmaster: G. H. Scarrett, B.A., second master (mathematics) R. B. Westmacott, M.A., French and English; E. H. Quibson, B.A., Latin and history; W. M. Gibson, M.A., science; W. E. G. Wenman, form master; Lieut. J. M. Grant, form master; J. D. Inverarity, junior form master; R. H. Cox, L. Mus., music and singing; Miss E. W. Bowden, matron, and Serg-Major G. Watson, physical instructor.

## MRS. J. CAMERON DIED SATURDAY

There passed away on Saturday evening at the family residence, 2842 Douglas Street, Elizabeth Cameron, aged seventy-nine years. Mrs. Cameron was a native of Glenora County, Ont., and had resided in Victoria for twenty-two years, where she has many friends who will regret to hear of her demise. She is survived by her husband, James Cameron, one daughter, Mrs. C. P. Foster of Minot, North Dakota; one brother, John Finlayson of Bottineau, North Dakota, and one sister, Miss M. A. Finlayson of Victoria.

Funeral service will be held from the Thomson Fetterly Funeral Home, on Wednesday afternoon at 2:30 o'clock. Rev. J. C. Switzer officiating, assisted by Rev. John Robeson. Interment will be made in the family plot in the Royal Oak Burial Park.

## False Teeth Kling Holds Them Firmly

Don't allow your plates to drop or slip when you eat. Try our Kling. Just sprinkle a little Kling on them. This improved powder forms a comfortable cushion, holds your plates so snug, it feels and acts like your own teeth. KLING is guaranteed better than anything you ever used or money refunded. Large package 35c at druggists.

## THE SPORTS MIRROR

Gorman Enthusiastic Over Return of Pro Hockey to Ottawa

New Leaders of Senators Will Get Good Support From Other Clubs

National and American Hockey Leagues Patch Up Differences

Cleveland May Trade Ferrell to New York Yanks for Gomes

**TOMMY GORMAN**, who is a dynamo of enthusiasm, has no misgivings regarding bringing Ottawa back to its old hockey status, following the deal in which he gained control of the Senators in the National Hockey League. Already he has the names of several players recommended by different hockey enthusiasts, keen to see him acquire good material to bolster up his squad. He has some revolutionary plans which should bring the crowd back, has the promise of practically every governor in the league that they will do their utmost to help along his cause by sale, trade or good salary. Gorman, an astute trader, already has his eyes on a few players he would like to get.

It is a great hockey town. Already I have been assured of a volume of support that has whetted my interest. There are a lot of fine players there. Here is a pretty good combination to start with," stated Gorman recently. Gorman knows hockey, knows the public pulse, has been a daring tactician. All the angles are an open book to him. It was he who took Sprague Cleghorn when rejected by all other clubs, to gamble on his comeback after two broken legs had tossed him out of action. Sprague went on to fame as one of the greatest all time defence men. It was his suggestion that turned Eddie Gerard from a left wing to a running mate for Sprague. This duo were probably the greatest defensive combination of all time.

He picked up Clancy when a mere kid, the next year took him to fashion him into a sensation. He grabbed off Alex. Connell from the amateur ranks, saw the possibilities of Hiltchman, brought Connell and Worsley to New York to bolster Americans into a contending team. He has that Ottawa situation well sized up. If his plans don't bring results, none will.

Peace has been restored between the National and American hockey leagues and all is well. At the time it was a war, indeed, that the rival leagues carried on. The American wanted to fight, but President Frank Calder, commissioner of hockey, placidly smoked his pipe, possibly what it was all about, and calmly announced that the American League heads could do as they pleased.

The so-called did no damage to the national until the Detroit club ran into financial difficulties, and also went into the hands of a receiver. This was not so good, so when Jim Norris and Tom Shaughnessy attended the National League meeting held in Toronto recently, but it was found that certain conditions existed, and, as no settlement could be reached, the Chicago men went home again, and probably gave deep thought to the matter. At any rate, another meeting was held at Detroit, and an amiable agreement was reached, and Commissioner Calder announced that peace had been officially restored.

George Young insists that he will swim no more in competition, but his trainer, Johnny Walker, does not agree. Walker has great influence with Young, and if he fails to induce him to race again this year he will likely be successful, when next season rolls around. It was Young's great victory across San Pedro channel on Jan. 1, 1927, that paved the way for the staging of the annual marathons at the C.N.E. and his retirement would cause genuine regret.

The story has swept along the baseball grapevine that Wesley Ferrell, the Cleveland Indians' great right-hander is to be traded for Lefty Gomez, the New York Yankees' southpaw.

It has even been suggested by some supposedly pretty astute baseball managers that Ferrell has not been doing his best work for the Indians, in the hope that he will be traded to the Yanks.

The Cleveland Management is sour on Ferrell because he can't seem to beat the good teams in the league. In nineteen victories he won three from Boston, five from Detroit, four from Chicago and four from St. Louis. That leaves only three games he won from the Washington Senators, Philadelphia A's and Yankees, one from each club, while New York and Philadelphia beat him three games each.

The Yankees would like to trade Gomez for Ferrell because Gomez is fragile. His romance with a Broadway actress has met with no better success than the Yankee management. He is unstable and inclined to be irresponsible.

**M. Fox Retains His Chess Title**

Hallebury, Ont., Sept. 12.—M. Fox, title-defending Montrealer, yesterday evening had won his fourth Canadian chess championship and retained the Drewry Cup after a final round victory in the Canadian chess congress, Haskon Opeahl, Temiskaming, Que., and L. Richard, Montreal, were tied for second place.

## Want Amalgamation If Suspensions To Receive Recognition

Delegates to Annual Meeting of Provincial Football Organization Vote in Favor of Affiliation With A.A.U. Providing Latter Will Recognize All Suspensions Made by Dominion Football Association and Its Allied Bodies; W. Lloyd Craig Is Re-elected President

Vancouver, Sept. 12.—Considerable discussion on the proposed affiliation with the A.A.U. of Canada by the Dominion Football Association took place at the annual meeting of the British Columbia Football Association in the Hotel Georgia on Saturday night. Correspondence from Secretary Sam Davidson of the ruling football body in Canada, outlining the regulations under which the alliance would take place, was read to the delegates, and the chief point in debate was the question of suspensions made by the D.F.A. being recognized by the A.A.U.

## GEORGE YOUNG AGAIN "HERO"

Re-established in Hearts of Toronto Fans By Victory Over Marvin Nelson

Whips Fort Dodge Swimmer By Fifty Yards in "Grudge Swim"

Toronto, Sept. 12.—George Young is re-established to-day in the hearts of Toronto citizenry as the monarch of swimdom.

In a gruelling finish, the Catalina Kid, swam Marvin Nelson, Fort Dodge, Iowa, into submission and won the much heralded "grudge swim" which featured the Canadian National Exhibition's nautical programme Saturday.

Young crawl-stroked over the five miles in two hours, fifteen minutes, five seconds, to defeat Nelson by fifty yards and take a \$500 purse.

But George wasn't the only hero Saturday. Flashy Frank Pritchard, Buffalo speedster, defeated one of the strongest fields in swimming history to win the three-mile invitation event in which six of the world's best men swimmers and one woman participated.

Pritchard set a new record of 1:12.16 for the distance of 100,000 cheering them on; battled around the final turn to the stretch and kept it up to the end. It was not until that stretch that the shore line at the exhibition grounds.

The Pirie family was also greatly in the limelight. Irene, a member of the Canadian Olympic team, won the women's division of the one-mile amateur swim, while her brother Bob took the junior class.

**NELSON MADE CHALLENGE**

The Young-Nelson swim started through a training camp squabble and a challenge issued by Nelson, who declared at the conclusion of the fifteen-mile marathon a week ago he could beat Young over any distance. Saturday they swam neck and neck for four and one-half miles, with a hysterical crowd of 100,000 cheering them on; battled around the final turn to the stretch and kept it up to the end.

It was not until that stretch that the shore line at the exhibition grounds. Young, somewhat of a disappointment in this year's marathon, received the greatest ovation Toronto has ever endured an athlete when he reached the shoreline at the exhibition grounds. Bury policemen were flung about like ninjapias as they tried to escort him to an automobile, and for a time it was feared the swimmer might be seriously injured by the mob.

**J. BENNETT IN CUP GOLF LEAD**

Turns in Net Score of 146 in First Round of Sharland Cup at Gorge Links

Registering a gross score of 192 for the first round of thirty-six holes, which his handicap cut down to a net 146 J. Bennett led the field at the end of the first round of the Sharland Cup at the Gorge Golf Club yesterday.

Only one stroke behind in second place was H. D. Reid with a score of 167-20-147, while B. Wynne was third with 148.

Complete score follows:

	Gross	Net
J. Bennett	192	146
H. D. Reid	167	147
B. Wynne	148	148
C. P. Smith	148	148
R. Peden	148	148
C. E. Benfield	148	148
F. J. Todd	148	148
A. J. Walker	148	148
R. W. Watson	148	148
C. Potts	148	148
D. A. Matthews	148	148
A. J. Hunkin	148	148
H. E. Corbett	148	148
Red Lawson	148	148
W. R. Christy	148	148
J. W. Walker	148	148
W. M. Galloway	148	148
T. F. Angus	148	148
Capt. N. L. Roberts	148	148
J. P. Angus	148	148
C. J. Pollard	148	148
C. S. Burgess	148	148
L. E. Leve	148	148
R. E. Morgan	148	148
C. P. Smith	148	148
C. J. Milne	148	148
G. P. Parsons	148	148
W. M. Galloway	148	148
Jack Gann	148	148
C. P. Benfield	148	148

Under amalgamation the D.F.A. would have control of all amateur football in Canada and soccer players would still be allowed to play with or against professionals without impairing their status. It was finally decided to advise Secretary Davidson that the B.C.F.A. clubs favor the amalgamation providing the A.A.U. will recognize suspensions of any nature made by the D.F.A. and its allied bodies, and not only charges of professionalism.

**CRAIG AGAIN PRESIDENT**

President W. Lloyd Craig was unanimously re-elected president, but Secretary-treasurer J. M. Richardson intimated that he was unable to stand again on account of his business, and Bob Fergie was chosen to fill the vacancy. In order, however, to retain Mr. Richardson's services and help, the delegates elected him vice-president for the coming season. Other officers chosen were: Honorary president, Charlie Jones; honorary vice-presidents, Alderman A. C. Cowan and Duncan M. Cameron (Vancouver); executive, James Chapman and Professor O. J. Todd (L.M.F.A.); and Alex. Marshall (Lower Island F.A.); auditor, to be appointed by council.

In his presidential address Lloyd Craig intimated that he was pleased to tell them that while they had had one of the toughest propositions on their hands which had faced any council he could say that he had received great assistance in working with Secretary Richardson and Messrs. Chapman, Marshall and Todd. While not always in agreement they at least had the courage of their convictions and he thanked them for their support.

Twenty-three regular council meetings and a large number of special gatherings had been held, many of which had run into the early hours of the morning.

The outstanding thing had been that of discussing fully the question of professionalism against certain clubs. The D.F.A. was all aware what had happened," said Mr. Craig. "Clubs refused to produce their books, and were suspended. We were criticized in some quarters by those who had made the constitution and put us into office to see it was carried out. I could, if I wished, cite cases of players not signing their forms properly, and if we had the right to use it or not I do not know. I have tried to live up to the constitution, yet we are criticized for living up to it. Since that time the Pacific Coast Association and League has been formed, and they have taken four clubs from Vancouver and four from Victoria.

**AFRAID OF FUTURE**

"The B.C.F.A. has no desire that the players concerned should quit football," said Mr. Craig. "The B.C.F.A. did not want to tie up the clubs, but we asked the clubs to come clean and declare themselves professionals and not deceive themselves. They did not get it, so we took it upon ourselves to act under the constitution. I do not think we acted unfairly—similar requests have been made before and met. I have in my pocket now an affidavit from a player who received payment for playing, but I promised him that I would not use it without his consent, and whether I will use it or not I do not know. We have tried to be fair and we will continue to do so.

"In conclusion I want to pay tribute to North Shore United for the way they conducted themselves when back east in quest of the Dominion championship. If you delegates could see the players who have been out of the field you would be proud to be associated with them. To the other clubs I appeal to continue in organized football, and make as much competition as possible, and I can tell you that I have a feeling that next year's D.F.A. finals will be held on the coast."

Despite a reduction of over \$700 in revenue last year, chiefly on affiliation and transfer fees, and cup and D.F.A. series received, the secretary's report showed a balance of \$756.27 in hand. This is mainly due to the fact that no medals have been purchased for the last season. Secretary Richardson thanked the clubs for their support and regretted his business would not allow him to continue in office. He said he felt that the outlaw teams would soon be back in organized football.

Victoria West Football club proposed an amendment to the constitution to allow for "outlaw" clubs in the Lower Division.

## May Decide Both Big League Ball Races This Week

New York Yankees and Chicago Cubs Expected to Cinch American and National League Pennants, Respectively, Within Few Days; Cubs Trim Brooklyn to Boost Lead to Six Games; Wes Ferrell Returns After Suspension to Hurl Cleveland to Victory Over Yankees

The major league baseball finish line still is fourteen days away but, with little luck, both pennant races may be decided this week.

New York Yankees are almost certain of clinching the American League within the next few days. They need only two victories to eliminate the sole remaining contenders, Philadelphia Athletics and Washington Senators. In the National League, Chicago Cubs are confronted with a sterner task.

The Yankees need ten victories to eliminate the Pittsburgh Pirates, or any combination of victories, which, coupled with Pittsburgh defeats, totals ten. The Cubs stretched their lead over the Pirates to six full games yesterday by trimming Brooklyn Dodgers, 3 to 0. The defeat all but eliminated the Dodgers from the race.

Boston Braves beat Cincinnati Reds in both ends of a double header, 12 to 3, and 10 to 1, and drew within a game and a half of the fourth-place Phillies. St. Louis Cardinals retained their hold on sixth place by beating New York Giants, 2 to 2, in the second game of a double header after taking a 7 to 3 beating in the opened.

**YANKS BEATEN**

The Yankees made no progress in their march to the American League flag for they were stopped by Wes Ferrell and the Cleveland Indians, 5 to 4.

Jimmy Fox's fifty-second homer in the first game helped the Yankees to a 5 to 4 victory over the Cleveland Indians, 5 to 4. Washington made it twenty-three victories in twenty-seven games by tripping Chicago White Sox twice, 2 to 1, and 9 to 4, and moved to within one game of the Athletics.

St. Louis Browns, after breaking an eight-game losing streak in the first game, dropped the second to Boston Red Sox, 5 to 3.

**AMERICAN LEAGUE**

Chicago, Sept. 12.—Washington's Senators continued their belated winning streak yesterday by taking two games from the Chicago White Sox, 3 to 1 and 9 to 4.

Four fielding by the White Sox in the first game helped the Senators to a 3 to 1 victory. The Senators' defense was aided by the fact that the White Sox were unable to get a hit in the first inning.

St. Louis Browns, after breaking an eight-game losing streak in the first game, dropped the second to Boston Red Sox, 5 to 3.

Washington made it twenty-three victories in twenty-seven games by tripping Chicago White Sox twice, 2 to 1, and 9 to 4, and moved to within one game of the Athletics.

New York Yankees and Chicago Cubs Expected to Cinch American and National League Pennants, Respectively, Within Few Days; Cubs Trim Brooklyn to Boost Lead to Six Games; Wes Ferrell Returns After Suspension to Hurl Cleveland to Victory Over Yankees

The major league baseball finish line still is fourteen days away but, with little luck, both pennant races may be decided this week.

New York Yankees are almost certain of clinching the American League within the next few days. They need only two victories to eliminate the sole remaining contenders, Philadelphia Athletics and Washington Senators. In the National League, Chicago Cubs are confronted with a sterner task.

The Yankees need ten victories to eliminate the Pittsburgh Pirates, or any combination of victories, which, coupled with Pittsburgh defeats, totals ten. The Cubs stretched their lead over the Pirates to six full games yesterday by trimming Brooklyn Dodgers, 3 to 0. The defeat all but eliminated the Dodgers from the race.

Boston Braves beat Cincinnati Reds in both ends of a double header, 12 to 3, and 10 to 1, and drew within a game and a half of the fourth-place Phillies. St. Louis Cardinals retained their hold on sixth place by beating New York Giants, 2 to 2, in the second game of a double header after taking a 7 to 3 beating in the opened.

**YANKS BEATEN**

The Yankees made no progress in their march to the American League flag for they were stopped by Wes Ferrell and the Cleveland Indians, 5 to 4.

Jimmy Fox's fifty-second homer in the first game helped the Yankees to a 5 to 4 victory over the Cleveland Indians, 5 to 4. Washington made it twenty-three victories in twenty-seven games by tripping Chicago White Sox twice, 2 to 1, and 9 to 4, and moved to within one game of the Athletics.

St. Louis Browns, after breaking an eight-game losing streak in the first game, dropped the second to Boston Red Sox, 5 to 3.

**AMERICAN LEAGUE**

Chicago, Sept. 12.—Washington's Senators continued their belated winning streak yesterday by taking two games from the Chicago White Sox, 3 to 1 and 9 to 4.

Four fielding by the White Sox in the first game helped the Senators to a 3 to 1 victory. The Senators' defense was aided by the fact that the White Sox were unable to get a hit in the first inning.

St. Louis Browns, after breaking an eight-game losing streak in the first game, dropped the second to Boston Red Sox, 5 to 3.

Washington made it twenty-three victories in twenty-seven games by tripping Chicago White Sox twice, 2 to 1, and 9 to 4, and moved to within one game of the Athletics.

## Go Into Leadership of English First Division Football by Win Over Wolverhampton; Allen and Smith Score Goals in Last Five Minutes to Win; Arsenal and Manchester Put on Thrilling Battle; Bradford City Retains Unbeaten Record; 60,000 See Rangers and Celtic Draw at Glasgow

London, Sept. 12.—Two goals scored in the closing minutes of the game with Wolverhampton—Wanderers sent Portsmouth to the top of the first division of the English Football League Saturday. Aston Villa had an opportunity to remain on equal terms with the southern team but obtained only one point playing a scoreless draw at Liverpool.

The Wolves played a stout defensive game against Portsmouth, and it was only in the last five minutes that Allen and Jack Smith netted to give Pompey the victory. Despite the fact that a goalless draw resulted, the Liverpool Aston Villa game was full of thrills, the home team's goal having been scored in the closing minutes of the first half. Everton, last season's champions, were under attack by the first half, but the Arsenal defence gave way in the second stanza, and W. Richardson and Clenden scored a GREAT MATCH.

One of the best matches of the day was that between the Arsenal and Manchester City on the latter ground. The London team winning by 3 to 2. Jack and Coleman scored for Arsenal in the first half, the latter adding another after the change of ends. The city men made a wonderful start and the excitement was intense when Busby and Tilson netted. Manchester made strenuous efforts to equalize in the closing minutes, but the Arsenal defence proved impregnable.

Newcastle United, the cupholders, proved much too strong for Leicester City, winning by a 2 to 0 score. Boys scored twice in the first forty-five minutes, and Lang tallied the third goal. Chelsea won their first victory at the expense of Sheffield United, 3 to 0, but Everton, last season's champions, were under attack by Sunderland 3 to 1, although they tallied the first goal.

Bradford City, the only unbeaten team in the Second Division, maintained their record and the league leadership by defeating their neighbors, Bradford, 1 to 0.

**DECISIVE WIN**

In the southern section of the Third Division Torquay's 8 to 1 victory over Southend United was outstanding. Orr and Stabb tallied in the first half, the margin being reduced to one goal by Shankly for Southend. After the resumption, Torquay swept through their opponents' defence without difficulty. Hutchinson netting three, Stabb two and Orr one. The Torquay team was playing in a north-north section game, Murray scoring twice and W. Watson and McConnell each, while Wale obtained Rochdale's only counter.

Glasgow, Sept. 12.—Rangers remain at the head of the Scottish League with a one-point margin over their rivals, Celtic. In a battle for the leadership Saturday the two Glasgow teams played a drawn game, each side scoring one goal.

The game of Celtic Park was played before 60,000 spectators. McGorry netted the home team's counter fifteen minutes after the start. McPhail equalizing seventeen minutes after the change of ends.

The unbeaten teams met at Motherwell, where the home side defeated Hamilton Academicals 4 to 1. Murdoch, McFadyen, Ferrier and McMenamy scored for Motherwell. D. Wilson replied for the visitors. In Wilson replied for the visitors. D. Wilson replied for the visitors. D. Wilson replied for the visitors.

Third Lanark stamped Queen's Park by six clear goals, Dundee scored three and Warden and Brelin one each, while Campbell notched the sixth when he put the ball through his own goal.

The rest interval the Wests pressed De Costa hard but were unable to slip one past the elongated net-tender. De Costa made some marvelous saves in the half. The Wests continued to take the offensive, but when one of their attacks was broken up, a combination run on the part of the Equinault team started which resulted in a goal. Boyd scored the goal off the feet of an opposing forward. Joe Watt cleared to his left. Boyd trapped the ball and immediately passed to Scotty Stewart who started down the field. John Watt then took hold of the ball to score. He shot a perfect one that never was more than two feet from the ground and hit the back of a save. Boyd scored the goal. Boyd scored the goal.

Saunders refereed, and the teams followed: Equinault—De Costa, March, Joe Watt, Pepin, Boyd, Sweeney, R. Stewart, A. Stewart, John Watt, Edwards and Williams.

Victoria West—Hood, Moody, Wright, Lorandini, Peers, Stewart, Connorton, Youson, Borden, Cockin, Shanks and Mulcahy.

In the City-Thistles encounter all the scoring was done in the first half. The Victoria players, shooting uphill, went into a one-goal lead in the first minute of play and inside ten minutes had increased their margin to two.

Bobby Davison, the new City centre, was the hero of the day. Since he scored both his team's goals. The first resulted after a general rush by the forwards on Goalie Wilmshurst. The net minder failed to get hold of the ball and Davison tapped it in.

The second City tally also came as a result of a forward rush. Davison shot a slow one from close in and the ball trickled into the net. This score, which was rather fortunate, proved the margin of victory.

The suburbanites then made several determined efforts to reduce their opponents' lead and with five minutes left of the first half, Tooley, Sassen wing man, slipped a fast one past Chalmers to make the score 2 to 1 in favor of the City at half time.

The City were playing down hill in the second half, but did not have any good chances. However, the City deserved the victory, though the football was not outstanding. A nasty cross wind made accuracy difficult.

# Tough Breaks And Riders' Combine Beat Peden

## Victoria Redhead And Lew Rush End Bike Race Fifth

**Make Great Showing in Final Hours of Torrid Sprinting But Fail to Annex Lead in Vancouver Bike Classic; Rush Wins High Praise for Courageous and Heady Riding in Pro Debut; Frank Elliott, Vancouver Canadian Olympic Man in First Race, Takes Chief Laurels Partnered With Van Slambrouck**

By TIMES STAFF REPRESENTATIVE

Vancouver, Sept. 12.—Old Man Tough Luck and a combination of riders, determined that "Torchy" Peden should not come through in the second running of the six-day race here and held Victoria's hard-riding redhead and Lew Rush, classy blonde neophyte of the velodrome from chief laurels when the long journey to nowhere ended here Saturday night. The Victoria pair had far more than their share of hard luck but were in the fight to the finish.

## PEDEN MEETS AL CROSSLEY

**Six-day Bike Stars Put Up \$500 Each For Series of Sprints To-orrow**

Vancouver, Sept. 12.—Torchy Peden, Victoria, and Al Crossley, English sprinter, will continue their rivalry at the six-day bike race to-orrow night when they will race for the best two out of three one-mile sprints. Each has put up \$500, winner to take all.

The programme to-orrow night will also have a fifty-mile team race with the contestants of the six-day event participating.

There will be a special sprint between Reggie Fielding, Toronto, and L. Van Slambrouck, winner, with Frank Elliott of the six-day grind.

A number of other special and novelty sprints will also mark the programme.

## MEYERS WINS TOUGH MATCH

**Claimant to World Middleweight Wrestling Title Defeats Eddie Madrick Here**

Bobby Meyers, claimant of the world middleweight wrestling championship, had another victory to his credit, following his smashing win over Eddie Madrick, Buffalo, in the main event of Saturday evening's card at the Pacific Stadium.

Meyers gained two falls to his opponent's one. In the semi-windefund Donald Blake, whiskered heavyweight from Denver, won from Al Sparks, Salt Lake City.

Meyers and Madrick opened at a fast pace and rough tactics soon crept into the bout. In the second round Meyers went after his opponent in earnest and after throwing him all over the ring pinned his shoulders to the mat, following a body slam. Madrick came back strong in the third round, and after hurting Meyers with head butts and throwing him through the ropes pinned him for the tying fall.

With the start of the fourth round both men resorted to kicking and gouging and the fans seemed to enjoy it. Madrick finally attempted to throw Meyers through the ropes but the New Yorker held on, and kicking himself clear, threw Madrick to the mat to pin him for the winning fall.

Blake and Sparks put on a good bout for the spectators. Sparks was about to secure the first fall in the opening round when he knocked Blake to the mat with a butt to the stomach. The Denver heavyweight was not long in evening matters, putting Sparks flat on the mat in the third frame.

A crashing body scissor was mainly responsible for Blake's winning fall in the fourth round. After he had taken pretty well all the fight out of Sparks with the scissors he threw him through the ropes and then pinned him when he crawled back.

"Rocky" Brooks refereed the bouts.

## CHINESE STAR BOUT WINNER

**Leong Tin Kit Gives Great Wrestling Exhibition to Defeat Hy Sharman**

One of the finest wrestling shows ever staged in Victoria was seen at the Tillamook gym on Saturday evening. In the main event Leong Tin Kit, Chinese grappler, and one of the smoothest working wrestlers to ever show here, used his punishing flying tackle to polish off Hy Sharman, diminutive star from Salt Lake City.

The semi-windefund, a rough affair between Des Anderson, Seattle, and Jack Lewis, Mississippis, went in favor of Anderson, two falls to one. Ernie Arthur, Victoria middleweight, refereed the bouts.

Kit, a beautifully built youngster, proved a veteran at the mat game as far as knowledge of holds and tricks were concerned. However, in Sharman, he found himself up against a man just as smart. One pleasing feature was the absence of rough tactics and good sportsmanship of the pair.

They broke clean and the referee had little work to do, except watch for falls.

SHARMAN GAINS FALL  
Sharman gained the opening fall in the second round when he forced Kit to tap the mat after holding him in a punishing wriggle for about three minutes. All during the fourth round the Chinaman was on the offensive, protecting his injured arm. At the start of the fifth Sharman commenced throwing Kit around with reverse headlocks. After taking several the Chinaman suddenly launched himself at Sharman in a flying tackle and felled the Salt Lake City boy with terrific force. He knocked him down twice more and then rolled him over for a fall. One of Sharman's ribs was badly bruised and he was forced to concede the third and winning fall. Both boys got a big hand as they left the ring.

The semi-windefund produced plenty of action for the spectators with Lewis proving an aggressive type of wrestler. He adopted rough tactics right from the start and in the second round secured the first fall with an airplane spin and body slam. A series of

brilliant spectacles were the riders, clad in their highly colored shirts flashed over the course at a speed which took the trained eye of the officials to watch for lap gains.

Once Peden seemed to have shaken his rival Gadou when he rode the French-Canadian into the ground. In a state of temporary exhaustion Gadou left the track but returned to fight gallantly on to the finish.

As the time shortened, the pace became heated. Puncture after puncture held Peden back, while his partner Rush, went down in a nasty smash when his bike slid from under him on a turn. He took another machine and returned to the fray.

Folly Parrott, the other Victorian in the race, gave a good account of himself in the sprints, leading the field several times in the short events.

The winners covered 2,379 miles after 144 hours' continuous riding.

STANDINGS  
The final standings follow:  
Van Slambrouck and Elliott—793.  
Two laps behind.  
Baggio and DeFilippo—687.  
Davies and Zach—646. Three laps behind.  
Crossley and Gadou—591. Four laps behind.  
Peden and Rush—1,074. Five laps behind.  
Horder and Parrott—727. Six laps behind.  
McNamara and Fielding—1,194.

## Equine Celebrity at the Seashore

Just as any alling celebrity might be ordered to the seashore for recuperation, so has April the Fifth, famed winner of the last English Derby, been put through a course of sea bathing. Here you see him wading on a Sussex beach as a couple of trainers look on. The treatment is expected to correct a leg ailment.

## Heavyweight Bout Will Be Postponed

New York, Sept. 12.—Probable postponement of the Mickey Walker-Max Schmelling heavyweight bout until Friday, September 23, was announced yesterday by Madison Square Garden.

The fight, originally slated for Monday, September 19, probably will be set back four days to give Walker a chance to recover fully from a painful boil on his left arm.

## LOMSKI WILL PERFORM HERE

**Aberdeen Heavyweight Meets Denny Lenhart, Portland, on Thursday Evening**

Boxing will return to Victoria on Thursday evening when the Pacific Stadiums promote their initial card at their Yates Street Arena, with Leo Lomski, Aberdeen, opposing Denny Lenhart, Portland heavyweight, in the ten-round feature.

Lomski appeared in Victoria several months ago, knocking out Steve Mullins in the fifth round. In the other bouts Promoter A. E. Chilton intends to match a number of outside battles with local talent.

The eight round semi-windefund will bring together Pat O'Hannigan, 170-pounder from Los Angeles, and a Victorian. In a special six-round bout, "Indian" Jack Grimm, 150 pounds, will be matched another local boy. The four-round opening preliminary will see Clair Godfrey, Los Angeles, and weighing 130 pounds, meeting an opponent to the named later.

Lomski and Lenhart will both arrive in the city to-orrow and will work out at the Pacific Stadium Arena.

THISTLES PRACTICE  
A practice of the Spanish Thistles senior football team will be held to-orrow evening at Spencer's Park at 6.30 o'clock.

## Great Fifth Inning Rally Gives Asahis Second Straight Win

**Defeat Sons of Canada 10 to 8 in Provincial Baseball Series Saturday After Being Six Runs Down; Veteran Parfitt Holds Nippons Scoreless for Four Innings But Blows Up in Fifth; Both Teams Use Two Pitchers**

Rallying in the fifth inning to score seven runs and take a 7-to-6 lead the Vancouver Asahis, champions of the Terminal League, defeated the Sons of Canada 10 to 8, in the second game of their provincial baseball play-off series at the Royal Athletic Park on Saturday afternoon. The victory put the Nippons in the second round of the B.C. series as they won the first game from the Sons last Friday evening 5 to 4. Saturday's defeat blasted all hopes of the Sons for provincial honors.

The Asahis will now meet Fraser Cafe, New Westminster champions, in a best two out of three series, the winner to clash with the Vancouver Senior League titleholders.

The Sons have no slibbs after Saturday's engagement. Going into the fifth inning they were leading by the wide margin of 6 to 0, but before the drama had been completed the Asahis had driven in seven runs, more than they have scored in any one inning all this season previous to Saturday.

Parfitt going into the lead in the fifth inning the Asahis always kept in front and scored three runs in the eighth to make their victory more secure.

PARFITT STARTS  
The Sons pulled a surprise by selecting the veteran Ray Parfitt for pitching duty. Parfitt got along nicely for four innings, holding the Asahis scoreless, while his teammates built up a six-run lead, enough runs to win any ordinary ball game. However, in the fifth Parfitt committed a weak and the Nippons took advantage of the opportunity. It would have been far better policy to have yanked Parfitt when he requested to be taken out early in the fifth. Instead the management returned him to the box, following a consultation, and he was left in until the Asahis had tied the score, when Cann was rushed to the rescue, but it was too late.

The visitors collected nine hits and seven runs off Parfitt and six hits and three runs off Cann. Boston, young southpaw, started on the mound for the Asahis, but was chased to the showers in the fourth in favor of Gregson, who finished the game and got credit for the victory.

SONS IN LEAD  
The Sons of Canada opened the game by scoring one run in the first inning. Two more in the fourth and three in the fifth gave the Victoria team a six-run lead. The fans started to sit back with visions of a third game in the series. However, in the fifth the visitors came through with their surprising rally to gain the lead. The Sons managed to drive in a couple more runs in the ninth, but were unable to get back onto even terms again.

R. Yasui, catcher for the Asahis, had a regular game day with the bat, securing four hits in as many trips to the plate. In an exhibition game played Saturday evening the teams fought to a 6-to-6 deadlock.

BOX SCORE  
Sons of Canada: 10 runs, 8 hits, 1 error. Asahis: 8 runs, 10 hits, 1 error. Bases on balls: 2. Struck out: 10. Sacrifices: 1. Hit by pitcher: 1. Wild pitch: 1. Double play: 1. Error: 1. Game called: 9:15 p.m. Umpire: T. Green. Time of game: 2:05.

McNamara Will Visit Victoria  
Reggie McNamara, "Iron Man" of six-day bike racing, known as the "veteran of the sport" in which he has spent twenty-eight years, will visit Victoria as the guest of Bill "Torchy" Peden, one of the greatest in the game on Wednesday.

Talking in the changing room following Saturday night's gruelling six-day grind in Vancouver, the rider from "down under" gladly accepted Torchy's invitation to visit the Capital.

View Royals In Double Victory  
In the three exhibition softball games played yesterday at the Work Point Barracks the View Royals defeated the Port Angeles Tramps 11 to 7 and Shawinigan Lake 4 to 3, and Port Angeles turned back Shawinigan Lake 14 to 10. The games were witnessed by a large crowd.

McNamara Will Visit Victoria  
Reggie McNamara, "Iron Man" of six-day bike racing, known as the "veteran of the sport" in which he has spent twenty-eight years, will visit Victoria as the guest of Bill "Torchy" Peden, one of the greatest in the game on Wednesday.

## COCHET NOT COMING BACK

**French Tennis Star Will Never Again Seek U.S. Championship; Flays Officials**

New York, Sept. 12.—Yowing he never again would play in an U.S. championship, Henri Cochet, France, beaten for the United States tennis singles title by Ellsworth Vines Saturday, called for France Saturday night on the steamship Champlain.

Cochet was openly critical of the manner in which the tournament was handled on its last two days. "Early in the tournament," he said, "they had a great many matches, sixty-four on the first day, thirty-two on the second and so on until Friday when they played only two matches. Yet they could not find a court for me to play on in the semi-finals and put me on at 8.45 p.m. instead of 4 o'clock as had been arranged."

The result was that Cochet's match with Wilmer Allison was halted by darkness after four sets and the final set had to be played Saturday morning. "It is too difficult to play in the semi-finals in the morning and in the final on the same afternoon," the French star said. "I had to get up at 7.30 o'clock Saturday morning and practice with my partner, and that put an additional strain on me. It is the last time I am coming to play for the championship in America."

## HALSHAM NOW AT EDMONTON

British Secretary of State For War Concludes Jasper Park Holiday  
Jasper Park Lodge, Alta., Sept. 12.—Right Hon. Viscount Hailsham, Secretary of State for War in the British cabinet, accompanied by Viscountess Hailsham, left Sunday night for Edmonton, where they will remain for a day as guest of Lieut.-Governor Walsh, en route east.

Lord and Lady Hailsham spent the last week here and on Saturday afternoon His Lordship presented the prizes to the winners of the seventh annual Totem Pole golf tournament.

## Wheat Prices Hit New Seasonal Low When Exports Lag

Winnipeg, Sept. 12.—Purchases of wheat for export failed to keep pace with rural marketing of new crop wheat, and wheat prices hit new seasonal low ground to-day. Prices at the close revealed losses of 1 1/2 to 1 3/4 cents. October declined 1/2 to 5/8, December 1/2 to 3/4, and May 1/2 to 5/8.

Downturns in stocks and cotton also contributed to the decline. Export trade worked over the week-end, and during the season amounted to 500,000 bushels. Demand for wheat was good on the decline, and good sales were made at both Atlantic and Pacific ports.

Liverpool prices were easier on bear-

ish statistics on the French crop, which indicated a record yield. Cables reported some pressure on Canadian wheat. Statistics for the last week showed less than 7,000,000 bushels of wheat shipped from all countries. Of this amount North American contributed 3,400,000 bushels.

Supplies on ocean passage decreased about 3,750,000 bushels and now total slightly over 20,000,000 bushels compared with 45,000,000 bushels at this time a year ago. Demand for cash wheat was dull. No. 2 northern was quoted at 10 1/2 to 10 3/4, No. 1 at 11 to 11 1/4. Shipping demand appeared to have fallen off. Coarse grains in light trade were lower in sympathy with wheat.

## To-day's Grain Markets

## WINNIPEG

(By Logan &amp; Bryan)

Winnipeg, Sept. 12.—The wheat market was decidedly heavy to-day with prices breaking 1 1/2 cents from the close of Saturday with only slight reactions taking place. There was a fair amount of buying for foreign or export account with sales estimated around 1,000,000 bushels, the business being evenly split between the two seaboard. Hedging sales were moderately heavy and elevator companies were selling steadily throughout the session. There was no considerable selling of May which was mostly coming from Chicago and was understood to be unwinding of spreads. The sharp break in stocks and lower cotton had its effect and Chicago wheat was just as weak or weaker than Winnipeg.

The demand for cash wheat continued miserably dull with few buyers in the market for anything. The spreads were widening out. No. 1 northern being unchanged, No. 2 northern 1 cent lower and other grades were fractionally lower. Country marketings on Saturday were 5,441,000 bushels vs. 3,191,000 bushels a year ago. The U.S. visible increased only 1,142,000 bushels but the Canadian figures were not available, but will likely show a big increase judging from the small clearances last week.

Weather is mostly clear in the west but showers were fairly heavy in southern Alberta over the week-end. Liverpool closed 1/2 to 1 1/4 lower and Buenos Aires was 1/2 to 1 1/4 lower at midday.

Winnipeg and Chicago closed weak and on the bottom, Winnipeg showing losses of 1 1/2 to 1 3/4 and Chicago losses of 1 1/2 to 2 cents.

Coarse grains—These markets were all lower largely in sympathy with the break in wheat and corn. However, there was very little going on, no export business was reported while the local cash market is very quiet for everything.

Oats closed 1/2 to 1/4 lower, barley 1 1/2 to 1/4 lower and rye 1 1/2 to 1/4 lower.

Flax—This market held firm most of the day but finally weakened off to close 1/2 to 1/4 lower. Trading light and demand poor.

Liverpool due 1/2 lower based on Winnipeg.

## FIRE MENACES ALBERTA TOWN

Feed Mill and Water Pumps in Delia Are Damaged

Canadian Press  
Delia, Alta., Sept. 12.—Fire threatened to wipe out the business section here yesterday but was brought under control after \$15,000 damage had been done and the town's water system impaired.

The blaze started in the feed mill of W. J. Clark at the extreme east end of the town. In addition to the mill machinery, the building housed the town's water pumps.

Nothing could be done to save the mill building when the firemen arrived, and they concentrated on protecting nearby buildings, which were greatly endangered. Had the flames extended to one nearby building firemen would have been almost helpless in saving several other structures which were separated by only a few feet.

Repairs to the water system had been effected yesterday evening, and supply was being maintained in all homes.

## Gain Honors For Life-saving Test

Bronze medallions for life-saving were awarded to Margaret Griffiths and Opal Abercrombie, pupils of Ralph Alock, of the City Bath House at the George, following their examinations on Saturday.

Mrs. Steeland Mrs. R. W. Hibbsen conducted the examinations.

## DOCKERS AND CITY VICTORS

(Continued from Page 14)

Substitutions were made by the City during the game. Alec Murray replaced Clark in the second half and Robson went on for McKinnon in the first half.

Billy Stewart refereed and the teams were:

Victoria City—Chalmers, Dobryn, McBain, McKinnon, Robson, Gibbons, Davison, McLean and McMillan.

Sanich—Thistlethwaite, Wilbur, McMillan, Harper, Colman, Viggers, Leg-

## SCHOOL SPORTS FEATURE FAIR

Lieut.-Governor Fordham Johnson Will Open Saanich-ton Fair on Wednesday

The sixty-fourth annual exhibition of the North and South Saanich Agricultural Society will be held to-morrow and Wednesday at the Saanich Hall, the official opening ceremonies being performed at 2 o'clock on Wednesday by Lieutenant-Governor J. W. Fordham Johnson.

The exhibition will be notable for the increase in the number of entries in all departments, while the excellent growing season has enabled the farmers and fruitgrowers of the Saanich peninsula to display products far exceeding in quality anything seen in recent years.

The school sports will be one of the most important of the entertainments provided for the Wednesday afternoon crowds expected. Twenty schools will compete for the many trophies, and keen competition is expected.

The eliminations for jumping events took place on Saturday afternoon at Reynolds Street Athletic Park and at the Saanich Hall grounds.

The trials resulted in the following competitors winning places in the finals to be held on Wednesday:

High jump, boys under 13—S. Gorton, McKenzie Avenue School; J. Gardner, North Saanich; J. Sing, Gordon Head; and B. Hall, North Saanich.

High jump, boys under 15—M. Poirard, McKenzie Avenue School; E. McKinty, Royal Oak; F. Mitchell, Cloverdale; and A. Moore, Tillicum.

Broad jump, boys under 13—W. Davison, North Saanich; P. Skinner, Sidney; G. Clanton, Sidney; B. Hall, North Saanich; and G. Duncan, Tolmie School.

Broad jump, boys under 15—F. Mitchell, Cloverdale School; T. Brooks, Mt. Newton; V. Bradstock, McKenzie Avenue; A. Slater, Sidney; G. Clanton, Sidney; S. Sanbury, North Saanich; and D. Lawson, North Saanich.

High jump, girls under 13—V. Dawes, North Saanich; B. Burt, North Saanich; M. McTaggart, McKenzie Avenue; and M. Braidwood, Tolmie.

High jump, girls under 15—M. Burt, North Saanich; V. Smythe, Tillicum; E. Sparks, Cloverdale; P. Smith, McKenzie Avenue; and W. McInnes, North Saanich.

Broad jump, girls under 13—K. Hoare, North Saanich; M. McTaggart, McKenzie Avenue; E. Marnod, Tillicum; and Y. Dawes, North Saanich.

Broad jump, girls under 15—M. Burt, North Saanich; M. Ellis, Gordon Head; W. McInnes, North Saanich; and E. Smith, McKenzie Avenue.

## MAY DECIDE BOTH BIG LEAGUE RACES THIS WEEK

(Continued from Page 14)

St. Louis, Sept. 12.—The St. Louis Browns broke a losing streak of eight games by defeating the Boston Red Sox 7 to 1 yesterday and Boston took the second game of a double-header 8 to 3.

St. Louis battered three Boston pitchers in the first game for fourteen hits.

A home run by Alexander with the bases full in the fifth inning of the second game gave the Red Sox a comfortable lead which the Browns were unable to touch.

First game—R. H. E.  
St. Louis 7 14 0  
Boston 1 8 1  
Batteries—Welland, Boerner, Michaels and Connolly; Stewart and Ferrell.

Second game—R. H. E.  
St. Louis 8 10 1  
Boston 3 10 1  
Batteries—Alexander and Taylor; Herbert, Cooney, Gray and Bengough.

Detroit, Sept. 13.—Jimmy Fox's fifty-second home run of the season in the seventh inning with Haas on base represented the margin by which Philadelphia Athletics defeated the Tigers 5 to 4 in a series opener yesterday.

Rube Walberg, spent the route for the A's but was spared a defeat in which Al Simmons starred with four extraordinary catches.

Philadelphia 5 4 1  
Detroit 4 5 3  
Batteries—Walberg and Cochrane; Marrow, Hognett and Desautels.

Cleveland, Sept. 12.—Wesley (I'll-be-good) Ferrell came back from a ten-day suspension to-day to lead Cleveland Indians to a 3-to-4 victory over the New York Yankees.

The temperamental mound ace who promised his boss to behave himself on the field was given a round of applause by the 25,000 who witnessed the game. It was Wes's twenty-first win of the season.

First game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Second game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Third game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Fourth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Fifth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Sixth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Seventh game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Eighth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Ninth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Tenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Eleventh game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Twelfth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Thirteenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Fourteenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Fifteenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Sixteenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Seventeenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Eighteenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Nineteenth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Twentieth game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Twenty-first game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Twenty-second game—R. H. E.  
Cleveland 3 8 1  
New York 1 10 1  
Batteries—Ferrell and Dickey; Ferrell and Myatt.

Twenty-third game—R. H. E.  
Cleveland 3 8 1

## WANDERERS IN CRICKET LEAD

Defeat Victoria By Fourteen Runs to Go Out in Front in Championship Race

Incogs and Albions Battle to Draw; Five C's Gain Easy Win Over Cowichan

With but one more game to play, the championship of the Victoria and District Cricket League hung more than ever in the balance to-day as the result of Wanderers' exciting victory over Victoria in Saturday's feature at the Work Point Barracks.

Wanderers gained their win by a fourteen run margin, the scores being 97 to 83.

In the other games of the day the old battling combination of F. A. Sparks and Reg Wenman, with scores of 50 not out, and 91 respectively, carried the Incogs to a draw with Albions, while Five C's overcame Cowichan without the loss of a wicket at Beacon Hill.

Incogs scored 205 for three wickets, and retired to let Albions score 145 for seven.

FAYNE AND ATTWELL BOWL WELL

The bowling of Percy Payne and Attwell spelled out victory for the Wanderers. Payne took four wickets for five runs in five overs, while Attwell gained five for forty-seven. The Wanderers were all out for 94, with Leggett score 33 and McLaughlin 23 to lead the side. Comley went in for the C's and scored 50 before retiring, while Reid added another 40 to exceed the Cowichan margin before he was bowled.

ONE POINT LEAD

As the result of the match at Work Point, Wanderers took a one point lead in the standings. Boscon and Darcus were in fine bowling form for the Wanderers, while Wilkinson and Goward were strong for Victoria.

Gibbons led the Oak Bay team in batting with 27 and Darcus added a good 24. Hood with 22 and Goward with 20 were the pick of Victoria's batsmen.
